YOUR PROGRESS  
LET US KNOW

VOLUME XVI

THE CLEARFIELD PROGRESS, CLEARFIELD, PA., TUESDAY EVENING, AUGUST 8, 1922.

NUMBER 184

## MUCH IMPORTANT BUSINESS TRANSACTED BY BOROUGH COUNCIL LAST EVENING; ANNEX CLEARFIELD HOSPITAL GROUNDS

Grant Permission To Leonardson Company To  
Complete Temporary Front On Second Street;  
Burgess Kittleberger Reports 24 Arrests For  
June And July; Notice of Claim for Damages.

## SIDEWALK BUILDING CAMPAIGN IS ON

Eight of the twelve members of the Town Council participated in the semi-monthly session of the Borough Legislature held in the council chamber last evening. In the absence of President of Council Rosser, Frank S. Gilliland was named president pro tem and presided over the deliberations.

### 24 Arrests in June and July.

Burgess Kittleberger was present at the meeting and reported 24 arrests for June and July, with the collection of \$111.50 in fines and \$20 in licenses for that period.

### Notice of Claim For Damages Filed.

Borough Solicitor Urey presented statement of claim for damages received from W. B. Adams, Esq., of Punksutawney, attorney for Mrs. Jones, an aged Punksutawney woman who fell on a defective walk in front of the Hugh Pool property on Turnpike avenue during the afternoon of July 1st last and broke one of her legs. The matter was referred to the property owner before reply was made to Attorney Adams.

### Will Purify Orr's Run.

The Solicitor also presented an Ordinance providing for the building of a sanitary sewer on part of West Front street and part of the alley lying immediately south of Nichols street and authorizing the construction of two lateral or branch sewers, one extending from the main sewer at William street and along that street to the alley north of Clearfield street, and the other extending from the main sewer at Weaver street, along that street to the alley north of Clearfield street. This sewer will serve to remove all house sewage from Orr's run and as the new Martin street sewer will do the same thing for the upper end of the run these improvements will remove a nuisance of long standing.

### Will Annex Clearfield Hospital Property to Borough.

Application was made by the officers and directors of the Clearfield Hospital Association to have the hospital property, now in Lawrence township, annexed to the borough. This property immediately joins the borough, but at present has no sewerage connections and annexation is asked for that the advantages and conveniences of the borough may be extended to this worthy institution. The hospital property contains three and five-tenths acres.

After the petition or application was heard, a resolution was unanimously adopted accepting same and the borough solicitor was directed to prepare and present at next meeting the ordinance required in the annexation.

### Railroads Cooperate With Council.

Letters were received from the P. R. & P. railway company and the P. R. R. Co. in which the first named company stated they would act on Council's request for repairs and improvements to their West Market street crossing, while the Pennsylvania stated they were ready to put the new sewer under their track at Leavitt avenue and connect with the Hill street sewer.

### Will Erect 'Curb Lights.'

Request for permission to install curb lights similar to those in front of the Y. M. C. A. building in front of the Murray building on Second street was received from E. W. Hess. The matter was referred to the street committee.

### Permit Granted Leonardson Co. For Temporary Front.

A. W. Leonardson, of the A. W. Leonardson Co. store, appeared before Council and asked permission to complete the temporary front at his building on Market street, work on which had been stopped a couple of weeks ago. Mr. Leonardson stated that he had copied his idea from a New York City store and felt that in addition to being an accommoda-

tion to him would also add to the appearance of the shed he had erected as a protection to pedestrians while the work of putting in his new front was progressing. The plan provided for the placing of glass in the ends and pavement side of the shed over the walk and Council unanimously agreed to allow the temporary occupation of the street beyond the sidewalk under the direction of the street committee.

### Want Walks on West Fifth Ave.

Joseph Ross was present and complained of the lack of sidewalks on the street, stating that it was a detriment to the properties on the street. Emory Hummel and Emmet Leas were also present regarding the Martin street sewer. Their complaints or requests were referred to the sewer committee.

### More Sidewalk Notices Served.

Notices to build sidewalks were ordered served on Charles E. Rockwell for his property on W. 6th avenue and E. E. Lewis on Martin street.

### Sewer Ordinance Passed.

The ordinance providing for the Orr's Run relief sewer was presented and unanimously passed.

An ordinance prohibiting the use of any vehicle or conveyance except a tight bottomed wagon for the hauling of dirt, coal, stone, ashes, etc. over the streets of Clearfield was presented and discussed, but on motion was laid upon the table until next meeting. Something is needed along this line as persons engaged in hauling have been entirely too careless and caused great inconvenience by littering up the streets.

### Want Better Crossings at Merrill and Fulton Streets.

General complaint was made regarding the B. & P. crossings at Merrill and Fulton streets and the secretary was directed to notify the railroad company to have them enlarged.

### Complaints About Open Sewer.

Martin Seifred was present and made a vigorous kick about the condition of an open sewer down the alley at Ninth street. The secretary was directed to notify the Board of Health to have the property from which the trouble is said to originate connect with the sanitary sewer and thus get away from the dumping of dish water and other refuse in the open ditch.

## BASEBALL FEELING RUNNING ON HIGH

The baseball game Saturday in which the Gearhart "Yarnbusters" lusted the jackets of the local American Legion team, has put more pep in the local baseball situation than anything else that has happened all season. The friends of the two teams are up in arms about the game and the relative merits of the players on each side. It is just such feeling and rivalry that makes baseball. Provided, of course, that the rivalry is honest and good-natured—and there is no excuse for anything but the very best of good sportsmanship growing out of this clash.

The two teams have been matched for next Thursday afternoon, and regardless of the outcome of this game, more will have to follow before the question of supremacy is finally determined. Let everybody go over to the Park Thursday afternoon prepared to root and root hard for his favorite team but let that rooting be clean and fair and everybody will be the better for it.

There is no reason for hard feeling anywhere along the line. Let them go to it, and may the best team win.

Howard Thompson of Curwensville was transacting business in Clearfield today.

\$30.00 BOUGHT THIS LITTLE MISS;  
WOULD YOU PAY THAT?

Marie Bakker, "sold" for \$30 in a Chicago court to Mrs. John Kenny (below).

By ROY GIBBONS

Chicago, Aug. 8.—What would you pay for a smiling, healthy, happy, pretty little girl of five? Little Marie Bakker, who's all that, brought \$30 at "auction" in the domestic relations court here.

Marie had been held in ransom by friends of her father to force settlement of a \$405 board and doctor bill expended in her behalf after the father had left Marie in their care.

Efforts on the part of a sister-in-law of the father, Mrs. John Kenny, a wealthy resident of Renville, Minn., to compromise the debt and take Marie away with her, met with opposition from the child's "captors" who were holding her for the bill ransom. They proposed relinquishing Marie

if Mrs. Kenny would settle up and pay all freight charges on the "goods"—Marie.

At this juncture Judge Adams of the domestic relations court intervened and awarded a claim of \$30 for Marie's board.

This amount Mrs. Kenny paid, whereupon she was allowed to lead forth her 1922 "slave" on the basis of "bought and paid for."

Instead of picking cotton for her new "mistress," Marie is to have a permanent place in the Kenny household with the rank of daughter.

"I'm your new mamma, honey," said Mrs. Kenny as she picked up her husband's chattel and walked out of the court building.

## CLARION GIRL DIES IN AUTO ACCIDENT AT BUFFALO, N. Y.

Miss Ada Kline of Clarion Killed and 4 Others  
Seriously Injured In  
Automobile Wreck.

## SISTER AT WHEEL

Buffalo, N. Y., Aug. 8.—Miss Ada Kline, of Clarion, Pa., was killed and four others were seriously injured when an automobile driven by her sister, Miss Mabel Kline, turned over here last night. Ronald Kline, aged 6, and Mrs. Kline, aged 52, mother of the girl, and Miss Sarah Ogden were injured.

## PLEASANT BIRTHDAY SURPRISE

A very pleasant birthday surprise party was held at the home of Caleb Boal, near Hyde City, last evening. The occasion was the birthday anniversary of Mrs. Boal. Refreshments were served to 123 persons. The young people, in order to give the old folks lots of room in the house, journeyed out to the barn and made merry in the good old-fashioned games on the barn floor. All enjoyed themselves to the limit and left for home wishing Mrs. Boal many happy returns of the day.

Squire J. C. Snyder, of Bondman, was in town today.

## EXPECT SETTLEMENT OF COAL STRIKE AT CLEVELAND MEETING HARD COAL AGREEMENT ALSO NEAR

Pres. Lewis Alleges Developments Having  
Important Bearing On  
Strike Taking Place.

## MAY WORK OUT

Cleveland, O., Aug. 8.—Important developments having a direct bearing on the mine situation are now taking place. This was the statement of John L. Lewis, international president of the U. M. W. of A., at noon today, as reports were received indicating that a large number of insurgent operators would attend tomorrow's armistice. Lewis' statement was believed to mean that the Pittsburgh insurgents were being persuaded to have representation at the conference.

Cleveland, O., Aug. 8.—End of the nation-wide bituminous coal strike apparently was at hand today. Settlement was expected to result from the conference starting at 3:00 p. m. tomorrow between miners' leaders and operators, the latter representing the soft coal fields throughout the country. Agreement of anthracite operators and men would be announced shortly or would follow shortly if the bituminous factions end their long fight, it was believed, following optimistic reports from the hard coal fields.

Mystery surrounds the statement made to his men by President John L. Lewis, an announcement which they were to keep secret. It was announced, however, that the hard coal settlement is to be effected today or tomorrow on the basis of the 1920 scale and that peace is to be guaranteed for two years from April 1st next. Four hundred thousand miners are to go back to work by the end of next week, the threat of paralyzation of business is to be lifted by the production of coal on a large scale. These were the optimistic predictions heard here today. There is every indication that a settlement is at hand, President Lewis said today. Other miners' leaders backed up their chief in his optimism.

## RUM RUNNING HAS TO TAKE WATER FROM A. VOLSTEAD'S NAVY

New York, N. Y., Aug. 8.—The international rum-running fleet was driven from American waters today by the Volstead navy. The fleet, which has been unloading its cargo for several weeks, was breaking the waves outside the twelve-mile limit, following an attack by the "dry" navy today. The invaders put on steam after the capture of a small auxiliary vessel running rum between the fleet and the coast. Two men and 100 cases of whiskey were seized.

## Secretary Rasmussen To Visit Clearfield To Stimulate Grazing

Harrisburg, Aug. 9.—Secretary of Agriculture Fred Rasmussen is about to make a tour of McKean, Clearfield and other upstate counties in the interest of a movement to bring back Pennsylvania's old-time grazing activities. He will accompany a number of men interested in raising beef cattle through parts of those and adjoining counties to inspect soil conditions and see if farms and cleared land which are available but not under cultivation can be utilized for raising cattle. For some time people connected with the Department of Agriculture have been investigating possibilities of raising beef cattle and sheep in central counties, where farming has not been found to be profitable under present conditions.

Govt. Seizure of Rail  
Roads In Public Inter-  
est Appears Unavoidable  
As Breach Widens.

## R. HEADS TO MEET

Washington, D. C., Aug. 8.—Government seizure of the railroads in the public interests today appeared unavoidable as both sides indicated their opposition to President Harding's latest proposal for settling the shopmen's strike. Rejection of this proposal will leave the President with only two moves. A call for a conference between railroad executives and strikers' leaders to settle their troubles and, this failing, to take over the railroads. The President indicated today that he is nearing the end of his efforts to mediate the dispute. More ominous than the stand of the leaders on the seniority question is the call for a general conference here of all railroad unions.

New York, N. Y., Aug. 8.—Railroad executives summoned to meet here on Friday showed no sign of backing down from their stand that they would accept no compromise. The American Association of Railway Executives was called to meet here by T. DeWitt Cuyler, president of the organization, when he received President Harding's latest rail peace plan. He issued his call from his summer home at Bar Harbor, Maine. L. F. Loree, president of the Delaware & Hudson railroad, and leader of the "bitter enders" among the executives expressed himself as being personally opposed to the Harding plan that the men go back to work and the seniority question be submitted to the Railroad Labor Board for settlement.

Cleveland, O., Aug. 8.—Warren S. Stone, head of the railroad union executives' association, today called a general conference of the heads of the sixteen rail unions comprising the association, to be held in Washington on Friday. The shopmen's strike and its effect upon the other unions will be discussed, Stone said.

Washington, D. C., Aug. 8.—The Shopcraft Commission of the Southern railway today announced that it would not conclude a separate peace in the railroad strike, according to a statement issued by H. W. Miller, vice president of the carrier. The strike must be settled nationally, leaders stated.

Washington, Aug. 7.—President Harding's new proposal for settling the railroad strike apparently advances "no constructive program," leaders of the striking shop craftsmen announced tonight after a protracted conference. They announced that a meeting of executives of all railroad unions, including the four brotherhoods, would be summoned to consider what action should follow rejection of the proposal.

B. M. Jewell, head of the shopcrafts federation, said the President's settlement proposals constituted "no" most uncalled for attempt to help the railroads break the strike," and added that "nobody ought to get the idea the shop federations will accept."

### Return, Says Harding.

President Harding had called upon striking railroad shopmen to return to work, requested the railroads to assign them to work and asked both the workmen and carriers to submit the disputed question of seniority to the railroad labor board.

The President sent a communication to B. M. Jewell, head of the Railroad and Shopmen's Union, and T. DeWitt Cuyler, chairman of the Association of Railway Executives, outlining the plan which he hoped would result in speedy termination of the strike.

Mr. Harding in his message asked that both parties to the dispute agree to comply with the decision rendered on seniority by the railroad labor board.

## SAM GOMPERS ASKS INFORMATION FOR PUBLIC ON ENGINES

Washington, D. C., Aug. 8.—Samuel Gompers, president of the American Federation of Labor, in a statement today demanded that the public be informed as to whether or not the locomotives being used on the railroads in this country have deteriorated to such a degree as to endanger the lives of the traveling public. He claimed that detailed information has not been given out as to the contributing causes of several recent disastrous wrecks.

## Pittston Family Critically Ill From Eating Of Poison Cake

Pittston, Pa., Aug. 8.—An entire family of five persons were critically ill here today as the result of eating cake which was purchased in New York City. Authorities at once started an investigation. The victims are Romola Testaguzza, his wife, and three children.

## FACISTI SUBDUED BY ITALIAN ARMY

Rome, Italy, Aug. 8.—The Facisti capitulated to the government orders today and commenced demobilization. Premier Facta had commanded the nationalist forces to disband, but on threat of a general strike of socialists the Facisti refused to obey orders and instead seized cities throughout Italy and drove out the socialist administration. Government troops defeated the nationalists and the latter's leaders directed demobilization.

Chief of Police Harry Bowman, of Hollidaysburg, one of Central Pennsylvania's very best police officers, was a Clearfield visitor yesterday.

Word was received by Mr. and Mrs. Thomas Johnsonbaugh of the death of their son-in-law, M. Frost, which occurred at his home in Cleveland, O., on Sunday last.

Misses Ella and Jane Wilson, of Pleasant Valley, Bradford township, are visiting their uncle, J. Blake Wilson, in Pittsburgh at present.

Miss Helen O'Brien, of South Fourth street, who was operated upon for goitre at the Clearfield hospital Friday last, is recuperating nicely at this writing.

Squire Geo. W. Whitmore, tax collector of Sandy township, was at the Commissioners' office on business today.

Mr. and Mrs. E. P. Carr and family, Mr. and Mrs. Stewart Morrison and family, Miss Genevieve Henchberger, Mr. and Mrs. Amos Keller, Mrs. Luvier, Mr. and Mrs. George Peters, and Perry Williams motored over to Penn's Cave on Sunday.

Thelma and Nina Guthrie of Tyone, are visiting Mrs. Edith Long at Clearfield this week.

# : News of : Our Neighbors CURWENSVILLE

Mrs. A. G. Woodward and Mrs. Joseph Hips, two South Side ladies who are interested in the improvement of Irvin Park, will hold a food sale at Jimmie's Sweet shop on Saturday August 12, the proceeds of which will be utilized in having permanent tables and benches on the ground.

The stone cutters who went on strike last Friday at the Roaring Run wharf for an increase of pay, have returned to work. They demanded an increase from 80 cents per hour to \$1.00. An agreement was finally reached and a compromise entered into by the men accepting a rate of 90 cents per hour, on a 9-hour basis.

Mrs. John L. Hauck and son Gilmore, William Hauck, wife and three children of Big Run, were Sunday visitors at the home of Mr. and Mrs. Lew J. LaPorte.

The Realty Company is building a house on the west side of the river for Ernie Post, who recently purchased two lots alongside of John place.

McLaughlin.

The Dunrow mines on the Caldwell farm made an effort to start operating the latter part of last week, but as only two or three men responded to the call, not much is being done. The Wiley mines are operating with some twenty employees. The operators are paying the miners an average of \$1.50 per ton, an increase over the 1917 scale of 60 cents. Clark and Irvin and P. E. Smith, who are operating small veins, are loading coal in cars, each paying a high tonnage rate for mining and getting coal aboard the cars.

Arrangements are going forward rapidly for a successful field day for Sunday school district No. 2, which includes all schools of every denomination in the district. The convention and picnic will be held at Peo Wee's Nest park, and a fine and interesting program will be one of the features which will be instructive. Thursday, August 24 is the date set for this event.

Mrs. Salome Watts, who was visiting her sister, Mrs. Rosa Null, at Uniata, Pa., is still unable to brought to her home on the Watts farm. She is afflicted with rheumatism and is confined to her bed.

Harry Bowman, Hollidaysburg chief of police, circulated among Curwensville friends Sunday and Monday.

Joe H. Draucker, a former Curwensville boy, now located in Hollidaysburg, was an old home visitor several days this week. He is the chief electrician at the asylum in that place.

Harry Ammerman and family, of Philipsburg, spent the week-end with kin folks in Curwensville. He is engaged in the draying business in the home of his adoption.

Putting down the road bed in Susquehanna avenue has been commenced and should the weather continue favorable for that work, the stretch through South Side ought to be completed within the next 20 days.

Dentist Williams, who has been located here for a little over a year, has closed his dental parlors and removed the same to Houtzdale where he will reside in the future.

Misses Louise and Elizabeth Kiltelberger are visiting in Pittsburg.

Miss Frances Shore is home after spending some time at State College.

Mrs. A. Z. Wolf and son Robert motored to Chautauqua, N. Y. On their return they will be accompanied by Misses Mary and Cora Wolf.

Mrs. H. R. Detwiler and Miss Stewart of Lock Haven are visiting at the home of R. D. Laporte.

Miss Constance Gano is visiting in Washington, D. C.

Mr. and Mrs. Guy Rorabaugh and family of Jersey Shore spent the week-end at the home of Mr. and Mrs. C. L. Russell.

The class meetings of the M. E. church that are being held at the homes of the members have had a wonderful effect spiritually. Six members of one family were received

into the church Sunday. The good work Dr. Collins and these classes are doing cannot be over-estimated.

Mrs. C. E. Doverspike spent the week-end at her home in New Bethlehem.

Mrs. C. M. Wall entertained her bridge club Friday evening.

Mrs. H. H. Hopwood was a DuBois shopper Saturday.

Mr. and Mrs. James Fitch and family of Beccaria and Miss May Fitch of Baltimore, Md., spent Sunday with Mr. and Mrs. Albert Malkin.

Miss Alta Yeager of DuBois is visiting Miss Genevieve Maurey.

R. R. Robinson has just purchased a new Studebaker coupe.

George Twigg of Philipsburg transacted business in town Monday.

## WINBURNE

Thanks to the untiring industry of a large number of men and boys who have worked voluntarily for more than a week, the Presbyterian church is much improved. A fine new iron fence has been erected, the church yard neatly graded, and a handsome cement walk and steps built in front.

Miss Annans, a former C. T. High school teacher, who is at present a student at State College, has been the guest for a few days of Miss Aveca Davis and has visited with her former pupils and friends.

J. Miller MacIndoe of Arcadia spent last week with his daughters here and was warmly greeted by many old time friends.

The Sunday school classes of Mrs. Thomas and Miss Sommerville held a joint picnic at Black Bear swimming hole Thursday and all reported a good time, and a wonderful dinner.

Miss Margaret Mudge attended a dance at State College Saturday, and spent the week-end with friends there.

Mrs. Charles Force of Lanse is entertaining her sister Miss Theresa Peterson and niece Mildred Edlund of Williamsport.

Miss Hilda Swanson, a successful teacher of our schools for several terms, has gone to DuBois, where she will take a course of business training.

John E. Simcox and family have returned after an absence of almost three months at Osego, West Virginia, where they visited relatives.

Many a family is thankful for the bumper crop of berries which is bringing an income sorely needed at this time.

Miss Lilly Platt of New York City is a guest of the Misses Sommerville at Highcliffe.

spent Tuesday at the home of Miss Huling.

Rev. Benjamin Thomas is at Northfield, Mass., where he will spend part of his vacation attending the Conference of Christian Workers.

Mrs. Murray Andrews and Miss Alice Wilson of Bellefonte were callers in our town Saturday.

The Missionary Society will meet in the Presbyterian church Friday evening, Aug. 11, when a special program will be presented by the young people.

**Remember Essential Things.**  
The limit upon memory is the limit of your attention and concentration. Successful business men have really splendid memories for the things more essential. They have them by virtue of their concentration, and if they say they are forgetful it will be found that they are only forgetful of the things which they do not elevate to the business standard.

**Earth's Wettest Region.**  
With an annual rainfall exceeding 500 inches, southern Assam is the world's wettest region.

BRUNSWICK  
TIRES

Manufactured by  
The Brunswick-Balke-  
Collender Co.

## Now a Tire That is 84% Friction-Proofed!

Friction is the enemy of tire life, for friction generates heat and heat destroys rubber. Every turn of the wheel in gaining road hold causes friction. A touch on the brake multiplies it.

A scientific new method of compounding rubber has decreased friction-caused heat amazingly. The new Brunswick Tires—84% friction-proofed—are revealing astonishing new road endurance and have effected an entirely new conception of tire service.

Brunswick Tires, though offering greatly increased value, cost no more than ordinary tires. A test will convince you.

# ODDS AND ENDS AND THINGS

By J. D. C.

These doctor fellows are continually digging up a new fad. A few years ago they decided that every fellow should have his appendix subtracted if he would remain long with us. Following this delving into mankind's interior, and after this fad had run its course, the "cut 'em up" boys decided that those flipper floggers guarding the slide into our "tummies," known as tonsils, must go by the board. After nearly everybody's throat had been reamed out another medical gent figured all our unaccounted ills must be due to too many too few, or too crooked teeth, and immediately thereafter a crusade was started against our teeth, until every dentist in the land is rapidly becoming a millionaire, while we are developing into a soap-drinking nation with-  
ating corn from the cob fast becomes a lost art.

All the above were bad enough in their time or until the doctor fellows got to be experts at digging them out, but we think the limit has been pretty near reached, and for that reason refuse to go along on the most recent fad of the doctor fellows. They are now taking to "cutting" the remainder of the hand, while J. D. C., a former Philadelphia A. was recently divested of the middle finger of his left hand because one of these faddists told him it would "let the bottle out." We refuse to give in to this fad or no fad.

The first postoffice in Clearfield county was located on the James Titchell farm, on the ridge road to Glen Richey, almost directly opposite the stone house on Mr. Titchell's farm. The place was called "Redboro" and the first postmaster, Alexander Reed, who opened his place for business on April 20, 1813. A handsome marker has been erected on the spot by Susquehanna chapter Daughters of the American Revolution, who are preparing to mark all the historic points in this section.

It might be interesting to the careless automobile drivers who are parking their cars on the street so close to the Pennsylvania railroad tracks that it has been found necessary many times to stop trains and have the train crews push the offending autos off the track to know just what this sort of thing means to the railroad company.

An ordinary passenger locomotive consumes a pound of fuel for every fifty-two feet it travels. Each unnecessary stop, made with a heavy freight or passenger train represents a fuel loss of from 500 to 750 pounds of coal depending on the weight of the train, the length of the stop and the grade condition.

A broken axle on a train of fifty cars has been known to cause a loss of as much as 2,510 pounds of coal in a ten-hour period.

The loss of coal each time a modern locomotive pops off for five minutes is about seventy-five pounds. If locomotive firemen were to save little more than one shovelful of coal out of each ten used, the total saving would be equal to nearly 7 per cent of all the coal handled.

The Clearfield County Fair will be held at the beautiful Clearfield Park Association grounds in Clearfield September 26 to 29, 1922, with over \$13,000 in premiums for exhibitors. It will be the biggest strictly agricultural fair in Central Pennsylvania.

The first Clearfield county fair was held in Clearfield in the fall of 1830. The fair grounds at that time were located on the G. L. Reed farm along the river on South Second street. The grounds boasted a third of an acre track.

On August 23d, 1871, the present immovable park was opened, the park committee advertising the fact of the completion of the half-mile race course by the publication of the following couplet in the county papers:

"The gates of Clearfield park  
Stand open night and day  
Inviting every sporting lark  
To come and drive away."  
Fairs have not been held every year since, but very few years have been missed.

A familiar figure at the Clearfield fairs during all the years since the opening in 1871 has been Scotty Erb, of Philipsburg, who recently secured a concession for the coming fair. Scotty was one of the first men to ask for and secure a concession at the fair held on the present grounds. He has been present with a stand of some description at every fair held there during the intervening half century—a record hard to beat.

| Totals             | 899    | 45     | 503    |

The coal strike up to date has cost far more than the war of 1812, which lasted four years, and the coal strike and the rail and coal strike have cost more than the war of 1812 and the Mexican war combined. The war of 1812 lasted 24 months and cost \$119,621,000.

The Mexican war lasted a little more than three years and cost \$174,199,000.

A London psychologist, Dr. Josiah Oldfield, says before 15 and after 50, a woman is all right and easy to get along with, but between those ages you had better keep your eye on her as she is generally "ararin" around making trouble for everybody. The learned doctor says: "Women are eager to command servants, to dominate husbands and to have men as supplicants at their footstools, but the chance of happiness is less for modern women than for those of those generations ago. The happiest periods in a woman's life are under fifteen and over fifty. Too often between those ages woman is discontented and consequently is dangerous. Under fifteen the maiden is engrossed with the pursuits of childhood. Over fifty she often acquires ideals to absorb her attention."

### DAYS OF YOUTH

"We are only young once," you often hear some person remark as an excuse for "hitting the pace."

True, we can be young but once, and the pleasure of youth must be crowded into that space of time.

But how long are we young? Some men are old at forty, while others are still young at sixty. It depends upon the pace they hit and the manner in which they hit it.

We can crowd a lot of work and pleasure into youth if we keep our hearts and our minds and our bodies clean, or we can reduce the amount of both and shorten our youth by resorting to reckless dissipation.

Your youth is your own. It will be prolonged or curtailed by your own acts.

### AND JIM REED WON

The latest returns from Missouri remove apparently the last doubt in regard to Rebel Jim Reed's success. The effort to punish Reed for opposing the treaty and the League and for his insubordination to Wilson thus fails ignominiously. The Democrats of Missouri make plain that they have no more use for the League than Mr. Reed himself had. They also hint unmistakably that they resent political dictation from the old Wilson crowd in this year of our Lord 1922, particularly when it takes the form of a campaign of extermination against their senior Senator in revenge for his doing as they rather than as Mr. Wilson wished in the treaty fight. And that is precisely the result that ought to have been expected. For the League of Nations is even more distrusted today than it was when H. G. Wells wrote of it in his "Outline of History."

"There are few signs of enthusiasm among the nations for the League at the present time. It does not even seem to know how to talk to common men. It has gone into official buildings, and comparatively few people in the world know what it is doing there, or care."

### PROHIBITION AT ISSUE

It is not quite clear why prohibition should be an issue in the campaigns in Ohio, Wisconsin and other states. Prohibition may be opposed by parties and individuals, but it is constitutional law and the election of a few Senators and Congressmen will accomplish nothing toward repeal. All their election will amount to will be an expression of the opinion of a minority which, according to present indications, will never become a majority.

The greatest obstacles to prohibition repeal in this country are the undisputed benefits which prohibition has brought. No wide-spread and comprehensive are these benefits that there is inclination on the part of the majority of the people to extend them rather than curtail them. Even now it is a safe prediction that more advocates than opponents of prohibition will be elected to Congress this fall.

### OBSERVATIONS

The Missouri attitude seems to be that marplotting is all right under some provocations.

Mere ownership of a furnace next fall will be no sign that a householder can start something.

When next winter's cold storage eggs are on the market seniority rights will be heard of again.

About the only available space the poster man has overlooked to date is the barber shop ceiling.

It is one of fate's ironies that Tom Marshall's favorite cigar went down to a nickel again in a Republican administration.

Uncle Sam is still getting returns from the Great War consisting mainly of requests for time extensions on European loans.

Faith in the country's survival of trouble is strengthened so long as there is enough corn on the cob to disarrange the American face.

## THE AGE OF OBSTACLES

From life's very beginning, one meets obstacles at every turn.

It was intended that each day should bring its struggles as these obstacles and struggles are necessary to make us sympathetic and appreciative.

The Clearfield Trust Company takes particular pains to help the new depositor overcome obstacles and invites his business.

**CLEARFIELD TRUST CO.**

## SENATE WILL DELAY SHIP SUBSIDY AS LONG AS POSSIBLE

By HARRY B. HUNT

Washington, Aug. 8.—"Out of the frying-pan into the fire" seems to be the future immediately ahead of the United States Senate.

For no sooner will the Senate have concluded with the tariff bill, which has split party ranks wide open, than it will be confronted with the administration's ship subsidy measure, over which a scarcely less bitter battle seems certain.

The House will take up the subsidy bill soon after it reassembles Aug. 15 following its midsummer recess. Hearings already have been concluded. Action by the House before the middle of September is considered probable.

### Drags in Senate.

But there will be no vote on ship subsidy in the Senate at this session.

Even if the tariff bill is finally cleared by the time the House passes the subsidy measure along, the Senate will balk at any final action until after the ballots Nov. 7 indicate the direction and violence of prevailing political winds.

The aim of the subsidy bill, now entitled "A Bill to Amend and Supplement the Merchant Marine Act of 1920," is to get the government's vast merchant fleet into private hands and into the business of carrying world commerce.

But the Senate, taking the view that there isn't an over-abundance of commerce requiring shipping just now but that there is a noticeable volume of political dissatisfaction and unrest believes nothing will be lost but much gained by proceeding with caution.

### What Bill Provides.

The subsidy bill would provide for the American public, through direct and indirect tribute to American ship operators, paying whatever sum might be necessary to give operators minimum annual profits of 10 per cent. Vessels now owned by the government would be sold to private operators under terms allowing 15 years to complete payment with four per cent interest on unpaid balances.

A loan fund of \$125,000,000 would be established from which private ship owners could borrow two-thirds of the money necessary to build new vessels. Such loan would be made for 15 years and two per cent annual interest.

Owners of American merchant vessels, in computing net income for taxation, would be permitted to deduct a sum equal to the income derived from operation in foreign trade provided they invest double the amount of the resulting saving in taxes in building new vessels in American yards.

### Shipping Board Function.

The direct subsidy provision of the bill authorizes and directs the Shipping Board to enter into contracts, on behalf of the United States, for the payment of compensation to vessels owned by American citizens and under American registry.

Contracts may run for periods of years, and the government payments could be made at least every six months. The amounts paid would be based on the speed and tonnage of the respective vessels.

Regardless of speed, one-half cent on each gross ton for each 100 miles is proposed. In addition, vessels capable of 12 knots an hour or more would be paid an additional sum in proportion to speed, up to two cents a gross ton on every 100 miles for vessels of 23 knots or over.

## WOMEN'S NEW FALL PUMPS

In patent, kid and brown leathers, in flat, medium or military heels at—

**\$2.95, \$4.95, \$5.85**

Hosiery to match all the new Low Shoes.

### How Much It Costs.

What this would mean may be indicated by computing what Uncle Sam would pay a fast 10,000-ton carrier between New York and European ports.

At the maximum rates, such a vessel would draw two and a half cents a gross ton on every 100 miles. On the 5,000-mile trip to Europe a fast 10,000-ton ship would earn in direct subsidy \$250 a mile, \$7,500 for the voyage over, or \$15,000 for the round trip.

It is the reaction of the American taxpayer to these figures that has House and Senate members uneasy.

"Subsidy," it is generally agreed, has an unwelcome sound to most American ears. For that reason, de-

pite the fact that it is a pet administration measure, there will be no haste in pushing it through.

For the same reason, it is insisted, one should not speak of "subsidy," but of direct and indirect "aid" to the American merchant war re.

But how much "aid," if any, Congress finally will grant will depend to no small degree on what the people who will pay the bill, say when they cast their ballots Nov. 7.

### The Other Side.

Mix—"This paper says that a Kansas farmer who is worth \$20,000 is considered rich enough to move to the city." Hicks—"Does it say how rich a city man ought to be to turn farmer?"—Albany Argus.

Punxsutawney  
Braddock

Tom Sims SAYS--

Is your wife back from your vacation yet?  
A serious shortage of reformed reformers is reported.  
The man who talks too much never does it well.  
Very few girls are as bad as they are painted; but lots are as white as they are powdered.  
The man with the least credit takes the least care of it.  
Now they claim Sherman didn't say "War is hell"; but that doesn't change what war is.  
The bigger auto a family has, the later they are at a party.  
Wealth is a burden in Russia. It takes a ton of rubles to buy a stick of candy.  
Grounds for divorce are usually battle grounds.  
We don't know where Rockefeller got his first dollar, but he got a man's last dollar.  
Home-made people seldom grow wild.  
Funny things happen. One day last week a millionaire's son was out of trouble.

Going South is fine, but a cashier who did it was caught.  
The latest boy wonder is "How long before school?"  
Easy going men often find it hard to keep going.  
It is hard to love thy neighbor when he loves thy lawn mower.

OHIO PRIMARY

Continued From Page One  
Thompson, of Cleveland, said to have the approval of the White House, and Congressman C. L. Knight were prepared to show the best contest of the day in their race for the Republican gubernatorial nomination. Vic Donahy was the Democratic favorite. Donahy was defeated by Governor Davis as the last election and is by far the strongest of the three Democratic aspirants in today's race.

To Escape Knife of Divorce.  
A chap before marriage does a lot of spooning, but after marriage it's a case of fork over.—Boston Transcript

Guided by Electricity.  
A French transatlantic steamship company was the first to experiment with the radiogoniometer invented by Bellini and Tosi. By means of this apparatus the direction of an invisible vessel, sailing along a coast and emitting wireless signals, can be determined from two stations on the shore and its course can be accurately mapped. Conversely, a vessel furnished with a radiogoniometer can determine its place near a coast by observing the directions of the waves coming from two wireless stations on the shore, and can thus make its way in a fog when the coast lights are invisible.

Lily of the Valley.  
The number of its names testifies to the popularity of the lily of the valley. Prettiest of all these is "ladder to heaven," which refers to its quality of purity and humility. The French call it "Muguet de Mal," the Germans, "Mal Blume."

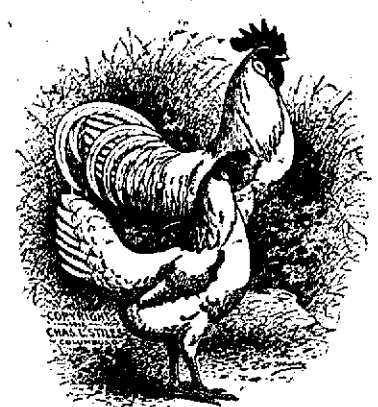

Virtue in Rising From Defeat.  
There is something solid and doughty in the man that can rise from defeat, the stuff of which victories are made in due time, when we are able to choose our position, better and the sun is at our back.—Lowell.

GLEN CAMPBELL WOMAN DIES

Mrs. W. H. Conner died at her home in Glen Campbell at 7 o'clock Monday morning after a brief illness. She is survived by her husband and the following children by her first husband: Mrs. Frank Diehl, of Bell's Landing; Mrs. Irvin Davis, of McGee's Mills; Lloyd Johnson, of near Grampian; James Johnson, of Cour d'Alene, Idaho.  
The funeral will be held from her late home Wednesday afternoon at 1 o'clock. Interment will be made at Grampian.

Not Original With Hayek.  
The aphorism, "He serves his party best who serves his country best" is from the inaugural address of Rutherford B. Hayes (1822-1893), as President of the United States, delivered March 5, 1877. In the famous translation of Homer's Iliad, made by Alexander Pope (1688-1744), the English poet, there is this line: "He serves me most who serves his country best."

Ancient Olympian Games.  
For the first 50 years from 776 to 725 B. C. the Olympian games were merely a 300-yard foot race. Then came the Pentathlon—running, jumping, wrestling, discus throwing and javelin throwing. Next was added the Paneratum, a combination of boxing and wrestling. Later chariot races. Athletes were required to train ten months and spend one month before the contests at Olympia.

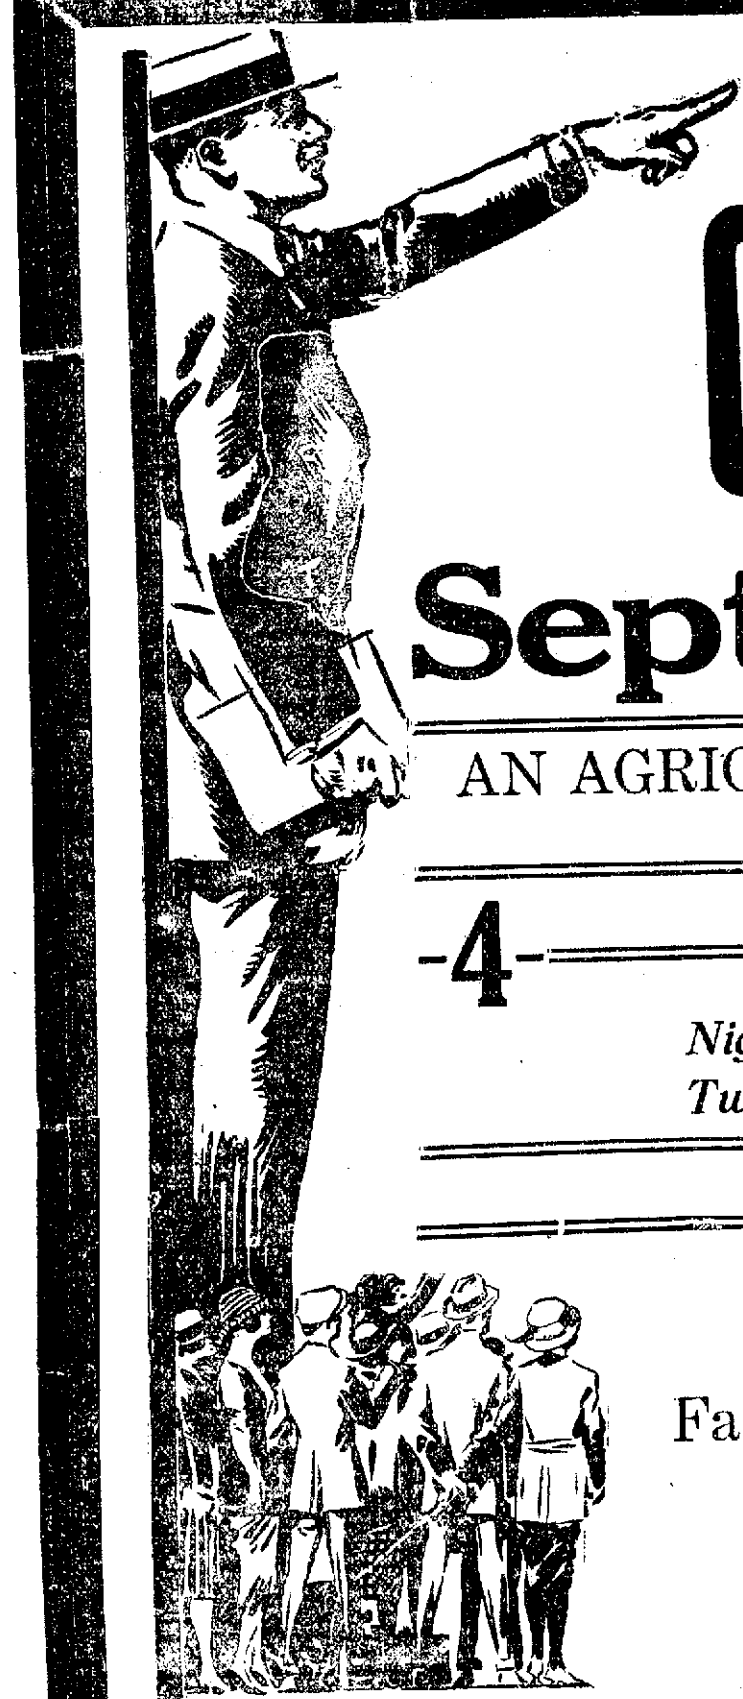

To the Poultry Raisers of Clearfield County,

As Superintendent of this Department of the Clearfield County Fair to be held September 26, 27, 28, 29, my ambition is to make this year's poultry exhibit the largest and best in the history of the fair. This can be accomplished by the co-operation of all breeders of thoroughbred poultry. In the past the exhibitors have responded nobly and have exhibited poultry that would be a credit to any poultry show in the state. An excellent spirit has existed among the different exhibitors, who have always supported the judge in his decisions in placing the prizes. Each year many new exhibits are placed and I hope this year will bring together all the breeders who have poultry to show. I will be glad to assist any one in lining up your birds or give you any information in regard to entering, etc. All stock will be fed and watered. No entry fee is charged. The prizes have been increased over the prizes offered in previous years. Following is the list of prizes offered:

|                                  | 1st    | 2nd    | 3rd    |
|----------------------------------|--------|--------|--------|
|                                  | Prize  | Prize  | Prize  |
| Old Pen (Cock & 4 Hens)          | \$3.00 | \$2.00 | \$1.00 |
| Young Pen (Cockerel & 4 Pullets) | \$3.00 | \$2.00 | \$1.00 |
| Hen                              | \$2.00 | \$1.50 | \$1.00 |
| Cock                             | \$2.00 | \$1.50 | \$1.00 |
| Pullet                           | \$2.00 | \$1.50 | \$1.00 |
| Cockerel                         | \$2.00 | \$1.50 | \$1.00 |

## THE WISE BIRD KNOWS WHEN TO FLY!

**Couldn't Fool Him.**  
Herbert was asked to stay for dinner. His hostess, knowing his fondness for chicken, laughingly told him they were going to have chicken for dinner. Herbert asked to see the bowl, and she took him to the kitchen and opened the oven door. To Herbert's surprise he beheld a roast of beef. Then he said sadly "I'm afraid I can't stay, I only like chickens wiv lega on."

**More Than One Universe.**  
With the naked eye one may see 5,000 stars, with the telescope 50,000, 000. And beyond planet and star and Milky Way are the nebulae, of which Herschel counted more than 2,000—stellar disks, composed of billions of suns—unexplored universes far outside our own, not friendly, next-door neighbors to us, like the North star, whose light requires only 50 years to reach us, or like Sirius or Hercules.

**Passing of the Scepter.**  
"Of course," said the bachelor thoughtfully, "there can be no such thing as joint rule in a family. Someone must be the head." "True," but the scepter passes from one to another. "How?" "Well, at the beginning of married life the husband holds it; then it gently and unobtrusively passes to the wife, and he never gets it back again." "She keeps it forever?" "Oh, no; the baby gets it next."

**When Florence Was Capital.**  
Florence has had some previous association with the Italian court, for in 1864 it was made the temporary capital of Italy, and in the following year the king and court removed there. In the same year the first assembly of the Italian parliament took place there. Not until 1871 did the government remove to Rome as the capital of Italy.

**Oldest Writing.**  
According to the claims of the University of Pennsylvania museum, the oldest pieces of writing known to us are from the Babylonian tablets recently deciphered by Professor Barton of the University of Pennsylvania. They deal with events as far back as 5000 B. C.

## Gossip For Tonight's Tea Table

Mr. and Mrs. C. M. Shaw of Pittsburgh motored here yesterday to spend some time with friends and relatives. They were accompanied by Mrs. Rebecca M. Shaw, who has been spending a few days with relatives in Greensburg.

Walter Watson and family motored to Laport, Sullivan county, last Wednesday to visit their daughter, Mrs. N. J. Simmons. The return trip was made Saturday.

Mr. and Mrs. W. W. Byron and daughter Kathryn have returned to their home in Altoona after visiting the former's sister, Mrs. H. B. Snyder.

Mr. and Mrs. George M. Rosser and daughter Jean are on a motor trip to Philadelphia and Atlantic City.

Born to Mr. and Mrs. Bruce Paterson at their home 11 W. Pine street, early Monday morning, an 8-pound daughter.

William Gunther, of Third street, was taken sick while at work at the Harbison-Walker brick works yesterday and had to be taken to his home, where he is now recovering satisfactorily.

## DUBOIS HOG RAISER BUYS HIGH GRADE HOGS AT PUNXSU

City Commissioner Geo. Minns Adds 3 Fine Berkshire Sires To His Herd At Big Sale.

AVERAGE \$65 HEAD

City Commissioner George Minns, Jr., of DuBois, set the pace for hog-buyers of this section at the big Berkshire sale at Punxsutawney Friday, by purchasing the highest-priced hog at the sale and also by purchasing the largest number of hogs of any of the many buyers that gathered for that important event.

Planned by the Frostburg Berkshire Association for the purpose of bringing in highly bred stock to increase the standards of the herds of this section, the Berkshire sale proved to be an occasion for the gathering of hundreds of stock raisers and farmers from all over this section of the state.

Twenty-seven hogs selected from the finest Berkshire herds in Berks, Bucks, Lancaster, York and Chester counties, had been gathered for the sale and Auctioneer Sam Moore, of Brookville, was greeted by spirited bidding. The sale being finished in short order.

The average price brought by the pure-breds was \$65 a head, one an-

imal purchased by Mr. Minns topping the list when it was knocked down for \$104. Mr. Minns also bought two other hogs and they will be used to improve the herd on his farm immediately north of DuBois.

**Purchasers.**  
Those who purchased hogs were Inglenbreed Gabrielson, Valier, 2; S. J. Stahlman, Brookville; S. S. Wetzel, Marion Center; D. F. Gaudley, Punxsutawney; George Pugh, 2; George Minns, DuBois, 3; D. W. Bish, Frostburg; I. S. Mitchell, Punxsutawney; C. B. Altman, Sligo, 2; J. W. Brown, Anita; H. H. Wetzel, Marion Center; J. M. Dicky, Clymer; Harry Holsopple, Penn Run; R. R. McDonald, New Bethlehem; Ed. Jones, Wilmore, 2; Dr. F. D. Pringle, Punxsutawney, 2; R. B. Faust, Sligo; S. E. Emhoff, New Bethlehem; W. H. Bish, Punxsutawney, and J. Means.

## RUNNING SORES VANISH

San Cura Ointment Relieves Terrible Skin Itch Like Magic—Relieves also Eczema, Salt Rheum and Heals Ulcers.

**A Most Wonderful Ointment.**  
Thousands have blessed the day they first heard of San Cura, for in thousands of homes in America, its wonderful quick acting, healing power has freed from terrible affliction one or more persons.

Running sores or fever sores, no matter how long standing, will soon disappear when San Cura Ointment is used or we will refund your money. It cures so often that your local druggist guarantees it for any of the troubles mentioned above and for burns, scalds, bruises, frost-bitten feet, chilblains, boils, carbuncles, sore nipples, itching piles. Money back if not satisfied.

San Cura Ointment—35c, 65c and \$1.25 at all Drug Stores.

Jordan, Oliveburg.  
There were 27 hogs in the lot shipped in and every one of them was sold.

**Jane Austen's Old Kiss.**  
There is not a single lover's kiss in all Jane Austen's novels, says A. R. Walsley. One kiss, and only one, is mentioned in the letters; but that was only one a gentleman wanted to give, and there is no evidence that he bestowed it.

**The Palace Pigeons.**  
One of the favorite roosting places of the rainbow or wood pigeon is in the grounds of Buckingham palace. Soon after three o'clock in the afternoon they may be observed gathering in the upper branches of the tallest trees. On one of the stormy days, such as we had recently, when the western sky is adumbrated, the delicate outline of the loughs and belgs against the setting sun is blotched with the forms of scores of roosting birds, huddling with tufted-up feathers upon their windy perch.

# ::: LET'S PLAN YOUR FERTILIZER NEEDS NOW :::

## 16 o/o Clear Acid Phosphate

Delivered to any point in Clearfield  
County

\$16.25 per ton

3-50  
Bone-Meal  
\$43.00 per ton

Sulphate of  
Ammonia  
\$75.00 per ton

Putting off the planning of your fertilizer needs for this Fall and next Spring is going to be more or less risky business. There is that element of chance in it that you don't want to take. Let's get together now and plan your needs. You know what fields you're going to use a certain fertilizer on—you know what crops you're going to try something new on—you know practically just what you're going to do. Let's plan on getting it done and arrange for deliveries when it is going to suit you best.

We quote some prices that we think will be interesting to you and you'll find that, quality for quality, these prices are as low as any you'll get now or later on.

# Great Activity This Month In Cattle Deals

## SECOND CARLOAD OF GRADE GUERNSEYS SHIPPED TO CHESTER COUNTY; CATTLE BROUGHT GOOD PRICES TO THE RAISERS

Most Of Those Who Sold Grades Are Now Planning To Replace Them With The Pure Bred Stock, Which They Can Breed With No More Expense.

### WHO IS IN THE MARKET FOR QUALITY?

During the past week, the second car load of grade Guernsey cattle was shipped out of Clearfield County. This bunch of twenty-two head, as well as the former load, went to Chester County, Pennsylvania. All of the cattle, in both cars, were obtained in the vicinity of Grampian and Curwensville, with the exception of three head in Goshen and a few around Lumber City and Curry Run.

#### Bring New Ones

Clearfield County is beginning to hold a unique position in the livestock centers of the State, having in the past few months imported about thirty head of pure breeds from Grove City community, and Columbia County, and expect to bring in about two car loads of pure bred heifers before fair time this fall.

The predominating interest seems to lie with the Guernsey breed, at the present time, and almost all inquiries received, by the Farm Bureau, are for that breed of cattle. However, as has been stated previously on this page, the Farm Bureau, co-operating with the Banks of the county will be glad to assist anyone in obtaining pure-breeds of any other breed.

A number of men who consigned grade Guernseys to both car loads that left the county are going to purchase pure breeds in the near future, which will add greatly to the pure bred industry of the County. At the present time, there is a great demand for Guernsey cattle, both in the grade and pure bred line, and the writer feels certain that this interest will continue for years to come, as the Guernsey breed is one that has always held a fairly even level throughout the history of the dairy industry. This has been mainly, because of the scarcity of the breed, and the great popularity of the Holstein during the war period.

#### A Good Market

The Farm Bureau could find sale for two or three hundred head of either pure bred or grade Guernseys each year, if they were for sale. However since it costs no more to feed pure breeds than grades, and the price is double or more for the pure breeds, it behooves the dairymen of the County to grade up their herds as quickly as possible, by the use of outstanding pure bred sires and to supplement a few of the grades with pure breeds just as quickly as possible or as finances will permit.

#### Place Your Order

The Livestock Auxiliary Association co-operating with the Farm Bureau desire that the farmers of the County, who are in the market for pure breeds, get in touch with the Farm Bureau at once, so that when the right opportunity arises for obtaining pure breeds, they might be in a position to go after them without first having to find out who were in the market for these individuals. Place your order at once and be sure of getting in on the next car load.

#### Of Two Evils—

Hugh had been left with his grand parents when his mother was called away by the illness of her father. A few days after she went away the little fellow said "I wish I was where mother is." His grandmother said, "Why, just think; if you were there you would be missing your school," to which he replied, "Yes, but don't you know it is a great deal worse to miss your mother than your school?"

## ONLY HIGH GRADE FERTILIZERS PAY IN THE LONG RUN

Action recently taken by experiment station officials and representatives of the fertilizer trade in conference at Wilmington, Delaware, will interest every Clearfield county farmer who is concerned about the fertilizer price lists. For many years, experiment station workers and extension specialists at the Pennsylvania State College have urged the farmers to purchase only high grade fertilizers in view of the large amount of money wasted annually in the expenditure for low-grade mixtures containing varying amounts of fillers. At the Wilmington conference, the fertilizer men gave their approval to the teaching of these specialists, in promoting the use of high grade fertilizers, and fewer formulas. In the matter of a number of formulas alone, it is obvious that the saving in manufacturing costs will effect an appreciable difference in the price the farmer has to pay.

Not all farmers, however, have learned to appreciate the value of using high-grade fertilizers. They were misled on buying a 2-8-2, for instance, in preference to a 3-12-3, because the price of the former is lower. The formula for both is identical. In lower grade, the purchaser simply pays for a greater amount of filler which increases the bulk of the mixture but does not add to its fertilizing properties. Two tons of the high grade fertilizer in this case will give the same results as three tons of the lower grade. When it is considered that the cost of mixing, bagging, handling, and transporting a ton of fertilizer is as much as \$11.00, in excess of the actual cost of the raw products, it is plain that the purchase of two tons of the high grade fertilizer, the 3-12-3, will effect a saving in cost that will be of greatest benefit to the farmer.

## VITAMINE VERSES

Little Willie, cabbage fed,  
Grew a bulky cabbage head,  
Large and round, but filled with naught  
That resembled active thought.

Every day to school he'd toddle  
With a vacuum in his noddle.  
Quite the dumbbell of the school.  
Couldn't learn by rote or rule.

History he simply hated.  
Grammar with deep gloom was weighted.  
Spelling and arithmetic  
Made him, somehow, simply sick.

Teacher said, "Of course he's good—  
So is any block of wood.  
Parents, take your backward child:  
Find him treatment, strong or mild."

When the doctor asked with heat  
"What does little Willie eat?"  
Papa said: "His cabbage diet  
Keeps our Willie nice and quiet."

Little Willie's been promoted,  
To his studies he's devoted.  
Teacher says: "He's very bright!"  
Leads his class in fun or fight.

Meat, red meat, has built up  
Willie.

Aren't "food fad" people silly?  
—R. D. Hebb and E. E. Morgan  
in the "Chicago Daily News."

## Ways Of Breaking Up Broody Hens Are Worth Remembering

There are dozen of old fashioned ways of breaking up broody hens. One of the best methods is to place the hen in a broody coop. A coop that will answer this purpose is one having a slatted bottom, with two inch slats two inches apart. Suspend such a crate about five feet from the ground and let the hen get plenty of fresh air. Feed a good scratch feed and a good mash in small containers, along with plenty of water, grit and oyster shell.

It would be to an advantage to feed her moist mash that can be cleaned up in fifteen minutes once a day. This will enable her to get a good forcing feed into her system and come back into laying in a hurry. A hen should not be in the coop more than 2 to 5 days before she will come back into laying. Although hens have been known to go broody for 14 to 21 days, then lay 20 eggs, then go broody again for the same length of time, and be profitable hens. Such hens may be profitable, but are far from being desirable.

## TESTED COWS GAVE TON MORE MILK IN TWO YEAR PERIOD

A milk flow increase in two years averaging more than a ton of milk to the cow is credited by Luther Miller, a Washington County dairyman, to his membership in the cow-testing association there.

The association records show that in June, 1920, Mr. Miller's cows had an average yearly production of 4,990 pounds of milk and 265 pounds of butterfat. The June just passed, a herd of equal size, culled and rebuilt in the light of production statistics obtained through the association averaged 7,902 pounds of milk and 412 pounds of butterfat.

## CHOOSING A RAM IS A VERY IMPORTANT PART OF LIVESTOCK RAISING JUST NOW

The season is near at hand when Clearfield County sheep men will find it necessary to choose a ram for next year's service. This particular phase of flock management is usually postponed until the very last minute, and then it becomes necessary for the flock owner to take whatever he can get. He may be lucky enough to get a real good sire, but more often, the best he can do is to purchase a grade or scrub substitute for the pure bred ram that he might have had.

The farmer who has an average sized flock can no more af-

ford to use a scrub or grade ram in service to his ewes, than can the extensive sheep raiser. Mr. W. B. Connell, Sheep Extension specialist at the Pennsylvania State College, claims that a good pure bred ram will pay for himself in one year. When the flock is small, say from 12 to 20 ewes, a good strong lamb can be used. It is imperative, however, that the selection be made while there are plenty of good rams available. County Agent Sterrett will be glad to assist any flock owner who is in the market for a good pure bred sire.

## FACTS ON SWINE INDUSTRY IN THE KEYSTONE STATE

Pennsylvania produces about one hog to every nine people, or in other words about a million hogs a year. There are kept for breeding purposes, approximately 143,000 brood sows and 19,000 boars, on some 72,000 farms in this State. From this it is plain that the average of these farms has but two brood sows. There is a boar, on the average, for every 7.5 sows, whereas there should be, for the greatest economy, one to every 30 or 40 sows.

Taking the United States as a whole, there are about 12 brood sows to every boar, almost double the ratio for Pennsylvania. Of the hogs in this State, only 2.9 per cent are pure bred. From the most authentic reports it is learned that 43 per cent of the boars in the State are pure bred, which means that only a small percentage of the females are so bred.

The Federal Government has recently published figures gathered from a large number of tests which show that purebreds are 38 per cent more efficient than scrub hogs in producing pork. This can be taken as conclusive proof that the pure bred hog is an improved machine, more efficient than the scrub in producing pork. If Pennsylvania is to attain first place in the amount of pork produced, our swine breeders must of necessity turn to the pure bred.

Swine Management Series,  
By F. M. Christen  
State College

## PASTURE WILL RUN SHORT THIS MONTH; FEED CATTLE WELL

During the latter part of August, pasture usually runs short. At which times medium or medium producers will not respond much to grain and will not pay for the grain eaten. An experiment carried on at the Cornell Experiment Station showed how even, that cows fed grain during the summer, will produce much better during the coming winter. This is exceptionally true of heavy producers and cows that do not freshen until Spring.

Where a small amount of grain is fed corn is good with pasture grass. It provides a fairly well balanced ration. Where five pounds or more of grain is fed, a mixture should be used. This may be made up from any of the following feeds.

Hominy or corn meal, ground oats, cottonseed meal, bran, gluten, or linseed meal, depending on the prices and feeds available.

#### Lands Practically Without Milk.

Japan and China are countries whose great populations have existed and increased without one of the articles of diet that to Americans seems an elementary food—milk. There is practically no production of milk in either of these countries, almost the only supply being imported from foreign nations in the form of condensed milk in cans.

## POSSIBILITIES IN COW TESTING WORK AS INCOME RAISER

On the basis of the work done by cow-testing associations throughout Pennsylvania, L. W. Morley, in charge of the Dairy Extension at the Pennsylvania State College states that similar associations, if extended to include the owners of the 1,000,000 cows of the State, would result in an increased dairy income of about \$3,000,000 a year. Mr. Morley reports that after four years of testing in one association the average milk production per cow was increased by more than 1200 pounds and the butter fat increased by 76 pounds. An increase of 76 pounds of fat per cow would mean 76,000,000 pounds of fat increase for all the cows in the State which calculated at forty cents a pound, would mean an added income of over \$30,000,000.

## COUNTY Agent Chat

Sow Pennsylvania Forty-four Seed Wheat this Fall. Will increase your yield per acre at least five bushels over other varieties. The Farm Bureau has a list of all the farmers in the County having this seed. If your neighbor does not have any write or call for the nearest source.

Potatoes should be sprayed for blight every ten days. By omitting one or two sprays the work of putting in the others is liable to be entirely lost.

Watch for announcements of Bee Keepers meeting, in the County, during the last of this month.

Have you placed your order for that pure bred heifer yet? Orders for the next car load should be in this week.

Pure bred animals are already being entered for the County Fair. In fact almost as many cattle have entered now as were exhibited last year. Make your entries early, so that the Fair Committee will know the number of a few sheds to build in order to accommodate the number of increased animals that will be exhibited. Help make Clearfield County Fair the largest in the State.

August 25th is Potato day at the Pennsylvania State College. The greatest group of farmers' representatives on the Committee will be present from every county in the State on that day. If you are interested in potato culture you cannot afford not to be there.

"Boys", you can still gain admission to the Freshman Class in Agriculture at the Pennsylvania State College this Fall, if you apply at once. The quota of agricultural students is almost reached at the present time. The majority of the other departments are already filled, as a great number over the one thousand, that can be admitted, have been received up to the present time.

#### Pleasant Prospect.

Bobby was fond of his uncle's dog, a ferocious looking mastiff, and was much distressed when he learned the dog would have to be muzzled because he had bitten the butcher. Bobby said: "I don't believe I'll do it." When the butcher came over Bobby met him at the door. He was very angry and said to the butcher: "You must come here and see if his teeth fits the muzzles."

#### And If She Stands for That!

"When I want to be plumb satisfied in my mind dat a sista has done been converted and not dees merely pollytoxin to be popular," confessed sage old Parson Raster, "I takes her husband to one side and tells him to let a wet dog into de parlor de fast time it rains."—Judge.

## PRICE VARIATION IN EGGS DISCUSSED BY POULTRY SPECIALIST, D. M. GRAY

As the State College Poultry Extension specialists conduct their demonstrations in the counties of the State they find a wide variation in the price that farmers are receiving for their eggs. The range may be anywhere from 18 to 40 cents a dozen. Naturally, the farmer who receives the low price wonders why his eggs do not demand the top quotation. Local market conditions and the method of selling exert some influence to be sure, but in nine cases out of ten the eggs themselves vary in quality as much as the difference in price indicates.

Small, dirty, foul-smelling old

## ELEVEN POULTRY CULLING EXHIBITIONS SHOW CAUSE OF LOW EGG PRODUCTION IS LARGELY POOR FEEDING IN THIS COUNTY

Dry Mash And Beef Scrap Is Omitted Too Soon—Poultry Culling Is No More A Mere Experiment, The Reports Indicate Since These Cullings Were Made.

### KEEP UP CULLING ALL SUMMER LONG

During the week of July 18th to 21st, the Farm Bureau held eleven Poultry Culling Demonstrations in Clearfield County. An average of twenty-five poultrymen attended each of these meetings, which were conducted by Professor D. M. Gray, of the Poultry Extension department, of State College.

These meetings brought out the interesting fact that poor feeding methods had more to do with the low production of the average farmer than did the culls in the flock. Too many farmers over the State omit the dry mash from the ration as soon as spring comes around, thinking that the laying hens will obtain enough worms and other material around the farm to make up for the beef scrap in the mash. These meetings demonstrated, however, that where the flock has been fed a mash consistently throughout the summer, having in it twenty per cent beef scrap, the hens

were laying profitably up to the present time, with few moulting in the flock.

It has been found that the average flock, about one-third of the hens could be discarded with profit. It has shown from reports since the culling demonstrations that very few eggs were received from the culls.

The culling of poultry has passed the experimental stage, and with proper feeding previously to the culling, the majority of unprofitable hens can easily be eliminated from the flock. This work should be followed through out the summer. Every two or three weeks picking out the hens that are easily moulting, that have a poor conformation. This way all of the hens can be eliminated before the winter weather comes on, and thereby make room for hens and pullets that will be profitable to keep through out the winter months when the price of eggs is high.

## Beef Cattle Meeting In McKean County Will Be Held On August 11th

A meeting of special interest to the beef cattle men will be held in McKean County on Friday, August 11th. Two hundred and twenty-five head of feeder steers were placed in cut-over timber land, similar to much of the woodland in Clearfield County, on the first of last April. These cattle have made exceptional gains and the results are being watched and studied by beef cattle men over the entire country. Any one interested sufficiently to attend this meeting should get in touch with the Farm Bureau at once for further information. There is a possibility that a car load or two, from the County, will attend this meeting.

Cattle were the first money. The Roman word for money, pecuniam, is derived from pecus, meaning cattle.—Well's Outline of History.

#### Twins.

The tendency to produce more than one child at a birth runs in families. It is handed down from mother to daughter. If the former has given birth to one or more sets of twins, the latter is rather likely to do the same thing.

## FARMERS IN BUSY SEASON NEGLECT AN IMPORTANT MATTER

This is one season of the whole year when farmers are prone to neglect one of the most essential phases of their business, that of keeping proper records and accounts of the business up-to-the-minute. It is a busy time of the year and the average farmer, when he is "busy," in an effort to lighten the burden, will drop those things that seem to him as the least important. The question is, whether or not farm account should be considered this head? Surely one would not think of discontinuing milking of the cows, the feeding of livestock, nor the harvesting of crops, and yet instantly can be cited where accurate farm accounts have shown the farmer exactly how he has lost money on these operations.

Farm accounts are and should be considered as inseparable from the successful management of a farm. Any of the tasks mentioned. The accounts are the basis of all business management. Without them, a statement analysis of the year's work is incomplete and uncertain. They offer the only means whereby leaks and losses can be found and checked. They often suggest methods of improving farm practices that will change a failing farm to a successful business enterprise. If the farmer would devote to give a certain amount of time each day to the recording of that day's transactions it would be no more necessary to neglect the profit-and-loss gauge of his business than it would to neglect the milking of the family cow.

## Cow Testing Association In Process Of Forming In Clearfield County

During the past month or so considerable interest has been shown, by a number of dairymen in the vicinity of Clearfield, for a Cow Testing Association, and during the month, an effort will be made to complete the organization.

Other articles on this page will demonstrate the benefit from such an organization.

# Join Before the Club Closes!

To Do This You'll Have To

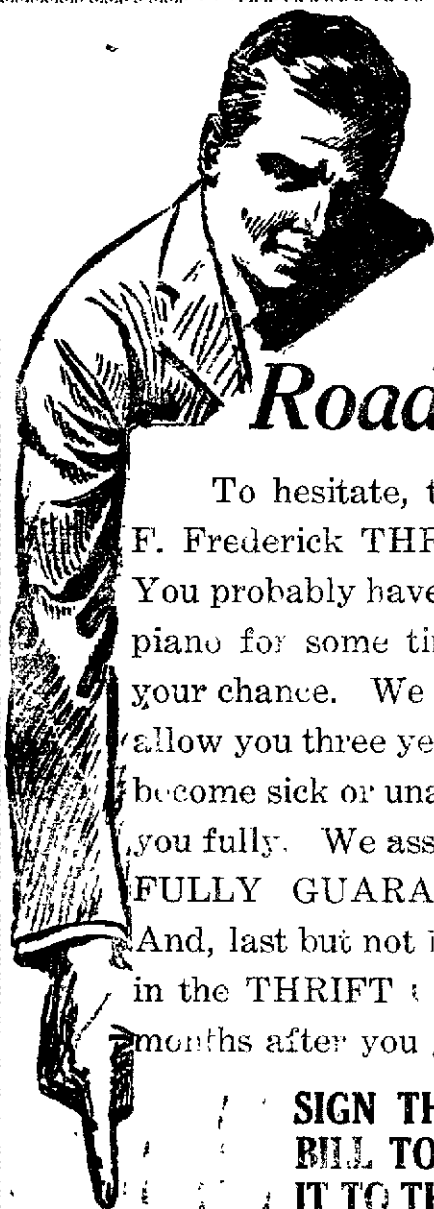

# h u r r y !

## Application Blanks Are Coming Fast And When We Reach Our Allotted Number The Frederick Thrift Club Will Close

The unusual advantages of this THRIFT CLUB has brought quick response---a response much greater than we expected---and if you are going to take advantage of the wonderful opportunity, you will have to act at once.

The application blanks are coming in with every mail, they are being handed in to the store and the members of the THRIFT CLUB are getting the advantages of the THRIFT idea as applied piano buying.

So if you want to save money; if you want to exercise the real idea of the times---THRIFT, be sure to get in touch with us before it is to late.

## Sign This Blank And Start Your Home On the Road to Musical Enjoyment

To hesitate, to put off signing this application blank for the W. F. Frederick THRIFT CLUB is to take chances of not getting in. You probably have been wanting a piano, a player-piano or a Grand piano for some time, but hesitated because of the expense. Here's your chance. We give you every protection. We take all the risk. We allow you three years in which to pay your Club dues. And if you become sick or unable to work, if you lose your position, we protect you fully. We assume the risk if you are visited by fire. AND WE FULLY GUARANTEE EVERY INSTRUMENT FOR 10 YEARS. And, last but not least, we allow you to exchange the piano you get in the THRIFT CLUB for another instrument if you desire, for six months after you join the club.

**SIGN THE APPLICATION, PIN YOUR DOLLAR BILL TO IT AND EITHER SEND, BRING OR MAIL IT TO THE STORE WITHOUT FAIL TOMORROW.**

### APPLICATION FOR MEMBERSHIP

Gentlemen: \_\_\_\_\_ Date \_\_\_\_\_, 192....

Please enclose my application for membership in your THRIFT CLUB.

I herewith pay you the membership fee of One Dollar (\$1.00), which, if my application is accepted, will entitle me to a full membership in your Thrift Club, together with all the Club advantages if I select a Thrift Club piano or player-piano at your store after my application is accepted, it being distinctly understood that my application is rejected or if I decide not to make a selection, the membership fee will be refunded.

I am interested in \_\_\_\_\_ (Piano, Player-Piano or Grand Piano)

My Name \_\_\_\_\_

Street \_\_\_\_\_

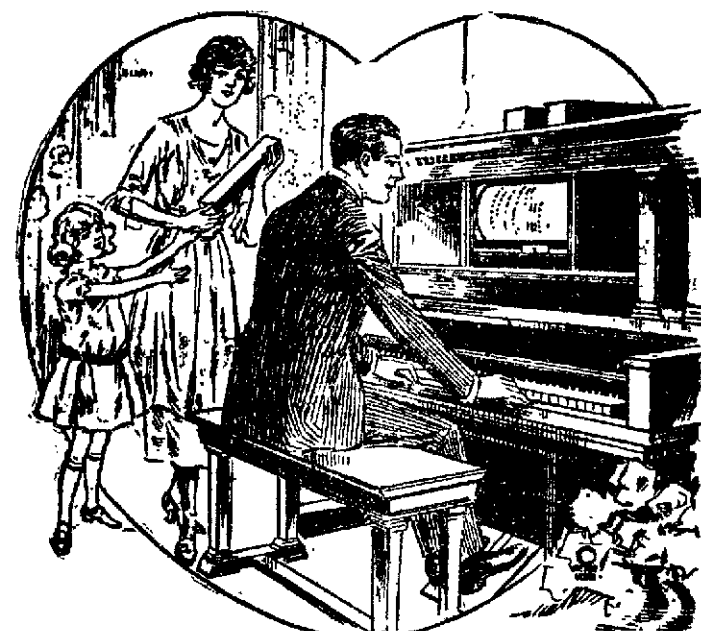

City \_\_\_\_\_ State \_\_\_\_\_

NOTE—Applicant must sign in person.

## Player Pianos

## Upright Pianos

## Grand Pianos

You have the choice of anything in our immense stock of Uprights, Players and Grands (which also includes some Baby Grands). You are not limited to the selection of one finish or one style—there are many styles and all the finishes. The tonal quality of any one of the FREDERICK PIANOS is so high and has been known so long in this vicinity that you only have to ask your neighbor how he likes his piano and almost always you'll find the answer the same: "I got my FREDERICK PIANO some time ago and if anything the tone is richer and fuller than it was when I first bought it."

And then—think of the hours of enjoyment FREDERICK PIANOS have brought to many homes! You've been in homes where the piano was the center of a group of young folks who were enjoying themselves to the limit singing songs—think of how much easier it will be to keep the young folks around you if you have the musical attraction in your home.

Then again. Possibly you want some music and no one with the ability to play it about. If you have a player-piano, all you have to do is slip on a roll and start the pedal motion. Forthwith comes the work of the great masters or the jazziest kind of jazz.

**Your Home Can Be Made A Center For the Young Folks or You Can Have Plenty Of Music Of Your Own Making If You'll Join The Thrift Club.**

## MEN AND WOMEN, GOOD AND TRUE WHO WILL JURY DUTY DO.

Traverse jurors drawn for the adjourned week of May Term 1922, beginning on the fourth Monday of August, being Monday, August 28th, 1922.

Arnold, Charles, clerk, Houtzdale.  
Anderson, Oscar, miner, Cooper.  
Barnett, D. C., farmer, Knox.  
Bratton, Milford, manager, Clearfield.  
Beck, Miss Isabelle, bookkeeper, Osceola Mills.

Bloom, A. M., foreman, Lumber City.  
Bechtold, J. C., farmer, Covington.  
Burchill, W. B., clerk, Beccaria.  
Bowman, John, farmer, Gulich.  
Bowersox, J. A., ins. agt., DuBois.  
Foyce, Lewis C., coal operator, Knox.  
Cross, Miss Pearl, teacher, Beccaria.  
Cowie, William, laborer, Sandy.  
Crawford, Geo., flagman, Osceola Mills.  
Crane, D. J., health off., DuBois.  
Deim, John H., farmer, Bell.

Erickson, Jo'r, laborer, Cooper.  
Erickson, Thumstin, laborer, Cooper.  
Evans, Robert, miner, Woodward.  
Flegal, Lum, foreman, Morris.  
Fitch, Leo, electrician, Beccaria.  
Gissey, Fred, farmer, Cooper.  
Hockins, Fred, fireman, Sandy.  
Hitchings, J. W., miner, Bradford.

Hagerty, Miss Gertrude, tch'r, Bigler.  
Henderson, Ralph, laborer, Pike.  
Heppburn, A. A., merchant, Mahaffey.  
Heberling, George, laborer, Sandy.  
Irvin, Fred B., gent, Clearfield.  
Jordan, Mrs. Minnie, mcht., Clearfield.  
Jones, William, painter, Decatur.

Katavish, Adam, machinist, DuBois.  
Leigey, James, farmer, Girard.  
Lee, P. Burton, farmer, Huston.  
Lowe, William, miner, Bigler.

# LESTER PIANOS & PLAYERS

## SPECIAL AUGUST SALE

### Don't fail to hear the marvelous Lester Piano-Player

Not only is the superb, high-class, sweet-toned Lester Piano, the admired instrument of musicians and teachers, offered to you at extraordinarily low prices, but the terms are so wonderfully easy that anybody can take advantage of the opportunity. If you want a Piano that settles it, all you have to do is just come to us and you get it practically on your own terms. The Lester Player-Piano is easiest to pedal, easiest to accent and brings out in minutest detail all of the expression and tone-color of the world's leading pianist. You can search the piano trade from coast to coast and find no other Player-Piano with as many splendid features, combined with such wonderful durability. Permanent satisfaction is built into every LESTER. This year, next year—ten, twenty years from now, your Lester will have the same sterling qualities that make it your choice today. Its wonderful stamina and durability make it a valued and worthy possession years after the ordinary instrument is worn out.

If you wish you may have over four years in which to pay for it. There is NO INTEREST added to the price of a Lester Piano or Player-Piano. We insure your piano so that in case of fire or accident your piano is replaced.

## FREE \$25 Worth of Music Rolls

OF YOUR OWN SELECTION WILL BE GIVEN YOU IN ADDITION TO A BEAUTIFUL BENCH TO MATCH YOUR PLAYER-PIANO

### Your old piano or phonograph will be taken in exchange at full value.

Come in and talk it over with us at our new location. With the wonderfully convenient terms we give you on such a high grade piano as the Lester, you cannot afford to be without music in your home.

Aughinbaugh's

WILL DEMONSTRATE FORDSON TRACTOR

The Pittsburgh branch of the Ford Motor Co., in conjunction with authorities and distributors of special industrial, commercial and municipal equipment for the Fordson Tractor will hold a public exhibit during the week of Sept. 11 in Pittsburgh, at which time the possibilities of the Fordson industrially equipped, will be properly demonstrated.

Henry Ford, raised as a farmer boy,

conceived the idea of reducing the many tasks of the farmer by the aid of a portable power unit. The Fordson tractor is the medium through which this has been accomplished, and has proven its value over and over again. Although originally designed for farm work, the Fordson has proven so practical in its many industrial, commercial and municipal uses that a genuine demand in this field has already been created.

One of the most outstanding features of the Fordson is its adaptability in the many and diversified tasks to which it is subjected. The tractor has demonstrated its ability to pull a standard 36 foot box car, as well as to perform many other feats of a similarly astonishing character.

The coming exhibition will represent the finest accumulation of tractor industrial equipment and appliances possible to display. Many leading local and out of town manufacturers, contracting firms, lumber companies, and many other commercial companies have already signified their desire to attend the exhibition so that they may witness the remarkable performances of the Fordson. The exhibition will be free to the public and from the amount of enthusiasm already manifested there is every indication that the event will be largely attended.

VOLUME XVI

THE CLEARFIELD PROGRESS, CLEARFIELD, PA., TUESDAY EVENING, AUGUST 8, 1922.

NUMBER 184

## MUCH IMPORTANT BUSINESS TRANSACTED BY BOROUGH COUNCIL LAST EVENING; ANNEX CLEARFIELD HOSPITAL GROUNDS

Grant Permission To Leonardson Company To  
Complete Temporary Front On Second Street;  
Burgess Kittleberger Reports 24 Arrests For  
June And July; Notice of Claim for Damages.

## SIDEWALK BUILDING CAMPAIGN IS ON

Eight of the twelve members of the Town Council participated in the semi-monthly session of the Borough Legislature held in the council chamber last evening. In the absence of President of Council Rosser, Frank S. Gilliland was named president pro tem and presided over the deliberations.

### 24 Arrests in June and July.

Burgess Kittleberger was present at the meeting and reported 24 arrests for June and July, with the collection of \$111.50 in fines and \$20 in licenses for that period.

### Notice of Claim For Damages Filed.

Borough Solicitor Urey presented statement of claim for damages received from W. B. Adams, Esq., of Punxsutawney, attorney for Mrs. Jones, an aged Punxsutawney woman who fell on a defective walk in front of the Hugh Pool property on Turnpike avenue during the afternoon of July 1st last and broke one of her legs. The matter was referred to the property owner before reply was made to Attorney Adams.

### Will Purify Orr's Run.

The Solicitor also presented an Ordinance providing for the building of a sanitary sewer on part of West Front street and part of the alley lying immediately south of Nichols street and authorizing the construction of two lateral or branch sewers, one extending from the main sewer at William street and along that street to the alley north of Clearfield street, and the other extending from the main sewer at Weaver street, along that street to the alley north of Clearfield street. This sewer will serve to remove all house sewage from Orr's run and as the new Martin street sewer will do the same thing for the upper end of the run these improvements will remove a nuisance of long standing.

### Will Annex Clearfield Hospital Property to Borough.

Application was made by the officers and directors of the Clearfield Hospital Association to have the hospital property, now in Lawrence township, annexed to the borough. This property immediately joins the borough, but at present has no sewerage connections and annexation is asked for that the advantages and conveniences of the borough may be extended to this worthy institution. The hospital property contains three and five-tenths acres.

After the petition or application was heard, a resolution was unanimously adopted accepting same and the borough solicitor was directed to prepare and present at next meeting the ordinance required in the annexation.

### Railroads Cooperate With Council.

Letters were received from the P. R. & P. railway company and the P. R. R. Co. in which the first named company stated they would act on Council's request for repairs and improvements to their West Market street crossing, while the Pennsylvania stated they were ready to put the new sewer under their track at Leavitt avenue and connect with the Hill street sewer.

### Will Erect 'Curb Lights'.

Request for permission to install curb lights similar to those in front of the Y. M. C. A. building in front of the Murray building on Second street was received from E. W. Hess. The matter was referred to the street committee.

### Permit Granted Leonardson Co. For Temporary Front.

A. W. Leonardson, of the A. W. Leonardson Co. store, appeared before Council and asked permission to complete the temporary front at his building on Market street, work on which had been stopped a couple of weeks ago. Mr. Leonardson stated that he had copied his idea from a New York City store and felt that in addition to being an accommoda-

tion to him would also add to the appearance of the shed he had erected as a protection to pedestrians while the work of putting in his new front was progressing. The plan provided for the placing of glass in the ends and pavement side of the shed over the walk and Council unanimously agreed to allow the temporary occupation of the street beyond the sidewalk under the direction of the street committee.

### Want Walks on West Fifth Ave.

Joseph Ross was present and complained of the lack of sidewalks on the street, stating that it was a detriment to the properties on the street. Emory Hummel and Emmet Leas were also present regarding the Martin street sewer. Their complaints or requests were referred to the sewer committee.

### More Sidewalk Notices Served.

Notices to build sidewalks were ordered served on Charles E. Rockwell for his property on W. 6th avenue and E. E. Lewis on Martin street.

### Sewer Ordinance Passed.

The ordinance providing for the Orr's Run relief sewer was presented and unanimously passed.

An ordinance prohibiting the use of any vehicle or conveyance except a tight bottomed wagon for the hauling of dirt, coal, stone, ashes, etc. over the streets of Clearfield was presented and discussed, but on motion was laid upon the table until next meeting. Something is needed along this line as persons engaged in hauling have been entirely too careless and caused great inconvenience by littering up the streets.

### Want Better Crossings at Merrill and Fulton Streets.

General complaint was made regarding the B. R. & P. crossings at Merrill and Fulton streets and the secretary was directed to notify the railroad company to have them enlarged.

### Complaints About Open Sewer.

Martin Seifred was present and made a vigorous kick about the condition of an open sewer down the alley at Ninth street. The secretary was directed to notify the Board of Health to have the property from which the trouble is said to originate connect with the sanitary sewer and thus get away from the dumping of dish water and other refuse in the open ditch.

## BASEBALL FEELING RUNNING ON HIGH

The baseball game Saturday in which the Gearhart "Yarnbusters" lusted the jackets of the local American Legion team, has put more pep in the local baseball situation than anything else that has happened all season. The friends of the two teams are up in arms about the game and the relative merits of the players on each side. It is just such feeling and rivalry that makes baseball. Provided, of course, that the rivalry is honest and good-natured—and there is no excuse for anything but the very best of good sportsmanship growing out of this clash.

The two teams have been matched for next Thursday afternoon, and regardless of the outcome of this game, more will have to follow before the question of supremacy is finally determined. Let everybody go over to the Park Thursday afternoon prepared to root and root hard for his favorite team but let that rooting be clean and fair and everybody will be the better for it.

There is no reason for hard feeling anywhere along the line. Let them go to it, and may the best team win. Howard Thompson of Curwensville was transacting business in Clearfield today.

\$30.00 BOUGHT THIS LITTLE MISS;  
WOULD YOU PAY THAT?

Marie Bakker, "sold" for \$30 in a Chicago court to Mrs. John Kenny (below).

By ROY GIBBONS

Chicago, Aug. 8.—What would you pay for a smiling, healthy, happy, pretty little girl of five? Little Marie Bakker, who's all that, brought \$30 at "auction" in the domestic relations court here.

Marie had been held in ransom by friends of her father to force settlement of a \$405 board and doctor bill expended in her behalf after the father had left Marie in their care.

Efforts on the part of a sister-in-law of the father, Mrs. John Kenny, a wealthy resident of Renville, Minn., to compromise the debt and take Marie away with her, met with opposition from the child's "captors" who were holding her for the bill ransom. They proposed relinquishing Marie

## CLARION GIRL DIES IN AUTO ACCIDENT AT BUFFALO, N. Y.

Miss Ada Kline of Clarion Killed and 4 Others  
Seriously Injured In  
Automobile Wreck.

## SISTER AT WHEEL

Buffalo, N. Y., Aug. 8.—Miss Ada Kline, of Clarion, Pa., was killed and four others were seriously injured when an automobile driven by her sister, Miss Mabel Kline, turned over here last night. Ronald Kline, aged 6, and Mrs. Kline, aged 52, mother of the girl, and Miss Sarah Ogden were injured.

## PLEASANT BIRTHDAY SURPRISE

A very pleasant birthday surprise party was held at the home of Caleb Boal, near Hyde City, last evening. The occasion was the birthday anniversary of Mrs. Boal. Refreshments were served to 123 persons. The young people, in order to give the old folks lots of room in the house, journeyed out to the barn and made merry in the good old-fashioned games on the barn floor. All enjoyed themselves to the limit and left for home wishing Mrs. Boal many happy returns of the day.

Squire J. C. Snyder, of Bondman, was in town today.

## EXPECT SETTLEMENT OF COAL STRIKE AT CLEVELAND MEETING HARD COAL AGREEMENT ALSO NEAR

Pres. Lewis Alleges Developments Having  
Important Bearing On  
Strike Taking Place.

## MAY WORK OUT

Cleveland, O., Aug. 8.—Important developments having a direct bearing on the mine situation are now taking place. This was the statement of John L. Lewis, international president of the U. M. W. of A., at noon today, as reports were received indicating that a large number of insurgent operators would attend tomorrow's armistice. Lewis' statement was believed to mean that the Pittsburgh insurgents were being persuaded to have representation at the conference.

Cleveland, O., Aug. 8.—End of the nation-wide bituminous coal strike apparently was at hand today. Settlement was expected to result from the conference starting at 3:00 p. m. tomorrow between miners' leaders and operators, the latter representing the soft coal fields throughout the country. Agreement of anthracite operators and men would be announced shortly or would follow shortly if the bituminous factions end their long fight, it was believed, following optimistic reports from the hard coal fields.

Mystery surrounds the statement made to his men by President John L. Lewis, an announcement which they were to keep secret. It was announced, however, that the hard coal settlement is to be effected today or tomorrow on the basis of the 1920 scale and that peace is to be guaranteed for two years from April 1st next. Four hundred thousand miners are to go back to work by the end of next week, the threat of paralyzing of business is to be lifted by the production of coal on a large scale. These were the optimistic predictions heard here today. There is every indication that a settlement is at hand, President Lewis said today. Other miners' leaders backed up their chief in his optimism.

## RUM RUNNING HAS TO TAKE WATER FROM A. VOLSTEAD'S NAVY

New York, N. Y., Aug. 8.—The international rum-running fleet was driven from American waters today by the Volstead navy. The fleet, which has been unloading its cargo for several weeks, was breaking the waves outside the twelve-mile limit, following an attack by the "dry" navy today. The invaders put on steam after the capture of a small auxiliary vessel running rum between the fleet and the coast. Two men and 100 cases of whiskey were seized.

## Secretary Rasmussen To Visit Clearfield To Stimulate Grazing

Harrisburg, Aug. 9.—Secretary of Agriculture Fred Rasmussen is about to make a tour of McKean, Clearfield and other upstate counties in the interest of a movement to bring back Pennsylvania's old-time grazing activities. He will accompany a number of men interested in raising beef cattle through parts of those and adjoining counties to inspect soil conditions and see if farms and cleared land which are available but not under cultivation can be utilized for raising cattle. For some time people connected with the Department of Agriculture have been investigating possibilities of raising beef cattle and sheep in central counties, where farming has not been found to be profitable under present conditions.

Govt. Seizure of Rail  
Roads In Public Inter-  
est Appears Unavoidable  
As Breach Widens.

## R. HEADS TO MEET

Washington, D. C., Aug. 8.—Government seizure of the railroads in the public interests today appeared unavoidable as both sides indicated their opposition to President Harding's latest proposal for settling the shopmen's strike. Rejection of this proposal will leave the President with only two moves. A call for a conference between railroad executives and strikers' leaders to settle their troubles and, this failing, to take over the railroads. The President indicated today that he is nearing the end of his efforts to mediate the dispute. More ominous than the stand of the leaders on the seniority question is the call for a general conference here of all railroad unions.

New York, N. Y., Aug. 8.—Railroad executives summoned to meet here on Friday showed no sign of backing down from their stand that they would accept no compromise. The American Association of Railway Executives was called to meet here by T. DeWitt Cuyler, president of the organization, when he received President Harding's latest rail peace plan. He issued his call from his summer home at Bar Harbor, Maine. L. F. Loree, president of the Delaware & Hudson railroad, and leader of the "bitter enders" among the executives expressed himself as being personally opposed to the Harding plan that the men go back to work and the seniority question be submitted to the Railroad Labor Board for settlement.

Cleveland, O., Aug. 8.—Warren S. Stone, head of the railroad union executives' association, today called a general conference of the heads of the sixteen rail unions comprising the association, to be held in Washington on Friday. The shopmen's strike and its effect upon the other unions will be discussed, Stone said.

Washington, D. C., Aug. 8.—The Shopcraft Commission of the Southern railway today announced that it would not conclude a separate peace in the railroad strike, according to a statement issued by H. W. Miller, vice president of the carrier. The strike must be settled nationally, leaders stated.

Washington, Aug. 7.—President Harding's new proposal for settling the railroad strike apparently advances "no constructive program," leaders of the striking shop craftsman announced tonight after a protracted conference. They announced that a meeting of executives of all railroad unions, including the four brotherhoods, would be summoned to consider what action should follow rejection of the proposal.

B. M. Jewell, head of the shop crafts federation, said the President's settlement proposals constituted "no constructive program," and added that "nobody ought to get the idea the shop federations will accept."

## Return, Says Harding.

President Harding had called upon striking railroad shopmen to return to work, requested the railroads to assign them to work and asked both the workmen and carriers to submit the disputed question of seniority to the railroad labor board.

The President sent a communication to B. M. Jewell, head of the Railroad and Shopmen's Union, and T. DeWitt Cuyler, chairman of the Association of Railway Executives, outlining the plan which he hoped would result in speedy termination of the strike. Mr. Harding in his message asked that both parties to the dispute agree to comply with the decision rendered on seniority by the railroad labor board.

## SAM GOMPERS ASKS INFORMATION FOR PUBLIC ON ENGINES

Washington, D. C., Aug. 8.—Samuel Gompers, president of the American Federation of Labor, in a statement today demanded that the public be informed as to whether or not the locomotives being used on the railroads in this country have deteriorated to such a degree as to endanger the lives of the traveling public. He claimed that detailed information has not been given out as to the contributing causes of several recent disastrous wrecks.

## Pittston Family Critically Ill From Eating Of Poison Cake

Pittston, Pa., Aug. 8.—An entire family of five persons were critically ill here today as the result of eating cake which was purchased in New York City. Authorities at once started an investigation. The victims are Romola Testaguzza, his wife, and three children.

## FACISTI SUBDUED BY ITALIAN ARMY

Rome, Italy, Aug. 8.—The Facisti capitulated to the government orders today and commenced demobilization. Premier Facta had commanded the nationalist forces to disband, but on threat of a general strike of socialists the Facisti refused to obey orders and instead seized cities throughout Italy and drove out the socialist administration. Government troops defeated the nationalists and the latter's leaders directed demobilization.

Chief of Police Harry Bowman, of Hollidaysburg, one of Central Pennsylvania's very best police officers, was a Clearfield visitor yesterday.

Word was received by Mr. and Mrs. Thomas Johnsonbaugh of the death of their son-in-law, M. Frost, which occurred at his home in Cleveland, O., on Sunday last.

Misses Ella and Jane Wilson, of Pleasant Valley, Bradford township, are visiting their uncle, J. Blake Wilson, in Pittsburgh at present.

Miss Helen O'Brien, of South Fourth street, who was operated upon for goitre at the Clearfield hospital Friday last, is recuperating nicely at this writing.

Squire Geo. W. Whitmore, tax collector of Sandy township, was at the Commissioners' office on business today.

Mr. and Mrs. E. P. Carr and family, Mr. and Mrs. Stewart Morrison and family, Miss Genevieve Henchberger, Mr. and Mrs. Amos Keller, Mrs. Luvier, Mr. and Mrs. George Peters, and Perry Williams motored over to Penn's Cave on Sunday.

Thelma and Nina Guthrie of Tyone, are visiting Mrs. Edith Long at Clearfield this week.

# : News of : Our Neighbors CURWENSVILLE

Mrs. A. G. Woodward and Mrs. Joseph Hips, two South Side ladies who are interested in the improvement of Irvin Park, will hold a food sale at Jimmie's Sweet shop on Saturday August 12, the proceeds of which will be utilized in having permanent tables and benches on the ground.

The stone cutters who went on strike last Friday at the Roaring Run wharf for an increase of pay, have returned to work. They demanded an increase from 80 cents per hour to \$1.00. An agreement was finally reached and a compromise entered into by the men accepting a rate of 90 cents per hour, on a 9-hour basis.

Mrs. John L. Hauck and son Gilmore, William Hauck, wife and three children of Big Run, were Sunday visitors at the home of Mr. and Mrs. Lew J. LaPorte.

The Realty Company is building a house on the west side of the river for Ernie Post, who recently purchased two lots alongside of John place.

McLaughlin.

The Dunrow mines on the Caldwell farm made an effort to start operating the latter part of last week, but as only two or three men responded to the call, not much is being done. The Wiley mines are operating with some twenty employees. The operators are paying the miners an average of \$1.50 per ton, an increase over the 1917 scale of 60 cents. Clark and Irvin and P. E. Smith, who are operating small veins, are loading coal in cars, each paying a high tonnage rate for mining and getting coal aboard the cars.

Arrangements are going forward rapidly for a successful field day for Sunday school district No. 2, which includes all schools of every denomination in the district. The convention and picnic will be held at Peo Wee's Nest park, and a fine and interesting program will be one of the features which will be instructive. Thursday, August 24 is the date set for this event.

Mrs. Salome Watts, who was visiting her sister, Mrs. Rosa Null, at Uniata, Pa., is still unable to get about. She is afflicted with rheumatism and is confined to her bed.

Harry Bowman, Hollidaysburg chief of police, circulated among Curwensville friends Sunday and Monday.

Joe H. Draucker, a former Curwensville boy, now located in Hollidaysburg, was an old home visitor several days this week. He is the chief electrician at the asylum in that place.

Harry Ammerman and family, of Philipsburg, spent the week-end with kin folks in Curwensville. He is engaged in the draying business in the home of his adoption.

Putting down the road bed in Susquehanna avenue has been commenced and should the weather continue favorable for that work, the stretch through South Side ought to be completed within the next 20 days.

Dentist Williams, who has been located here for a little over a year, has closed his dental parlors and removed the same to Houtzdale where he will reside in the future.

Misses Louise and Elizabeth Kiltelberger are visiting in Pittsburg.

Miss Frances Shore is home after spending some time at State College.

Mrs. A. Z. Wolf and son Robert motored to Chautauqua, N. Y. On their return they will be accompanied by Misses Mary and Cora Wolf.

Mrs. H. R. Detwiler and Miss Stewart of Lock Haven are visiting at the home of R. D. Laporte.

Miss Constance Gano is visiting in Washington, D. C.

Mr. and Mrs. Guy Rorabaugh and family of Jersey Shore spent the week-end at the home of Mr. and Mrs. C. L. Russell.

The class meetings of the M. E. church that are being held at the homes of the members have had a wonderful effect spiritually. Six members of one family were received

into the church Sunday. The good work Dr. Collins and these classes are doing cannot be over-estimated.

Mrs. C. E. Doverspike spent the week-end at her home in New Bethlehem.

Mrs. C. M. Wall entertained her bridge club Friday evening.

Mrs. H. H. Hopwood was a DuBois shopper Saturday.

Mr. and Mrs. James Fitch and family of Beecaria and Miss May Fitch of Baltimore, Md., spent Sunday with Mr. and Mrs. Albert Malkin.

Miss Alta Yeager of DuBois is visiting Miss Genevieve Maurey.

R. R. Robinson has just purchased a new Studebaker coupe.

George Twigg of Philipsburg transacted business in town Monday.

## WINBURNE

Thanks to the untiring industry of a large number of men and boys who have worked voluntarily for more than a week, the Presbyterian church is much improved. A fine new iron fence has been erected, the church yard neatly graded, and a handsome cement walk and steps built in front.

Miss Annans, a former C. T. High school teacher, who is at present a student at State College, has been the guest for a few days of Miss Aveca Davis and has visited with her former pupils and friends.

J. Miller MacIndoe of Arcadia spent last week with his daughters here and was warmly greeted by many old time friends.

The Sunday school classes of Mrs. Thomas and Miss Sommerville held a joint picnic at Black Bear swimming hole Thursday and all reported a good time, and a wonderful dinner.

Miss Margaret Mudge attended a dance at State College Saturday, and spent the week-end with friends there.

Mrs. Charles Force of Lanse is entertaining her sister Miss Theresa Peterson and niece Mildred Edlund of Williamsport.

Miss Hilda Swanson, a successful teacher of our schools for several terms, has gone to DuBois, where she will take a course of business training.

John E. Simcox and family have returned after an absence of almost three months at Osego, West Virginia, where they visited relatives.

Many a family is thankful for the bumper crop of berries which is bringing an income sorely needed at this time.

Miss Lilly Platt of New York City is a guest of the Misses Sommerville at Highcliffe.

Rembrandt Peale of St. Benedict

**SALE:—1 Red Cross Victor Range for sale. Good condition. Reasonably priced. Inquire Samuel Dixon, Wrigley Addition.**

## "THE GREATEST OF MODERN FICTION"

A. S. M. HUTCHINSON

"If Winter Comes"

By A. S. M. Hutchinson

Don't miss the first installment of the best seller of England and America. It appears in

THIS PAPER  
Monday, August 14th.

spent Tuesday at the home of Miss Huling.

Rev. Benjamin Thomas is at Northfield, Mass., where he will spend part of his vacation attending the Conference of Christian Workers.

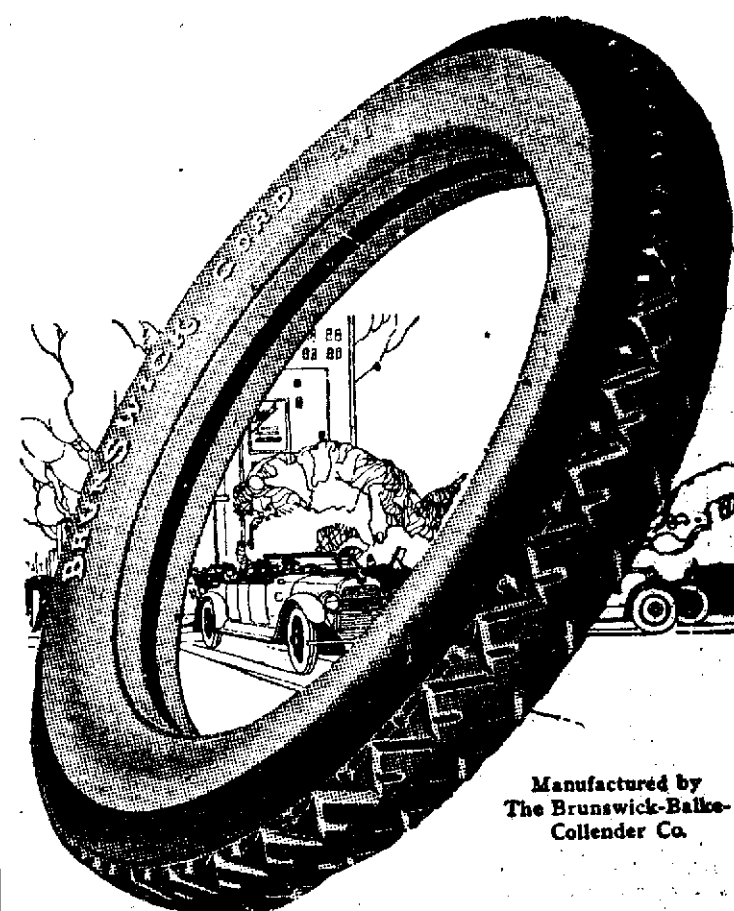

Mrs. Murray Andrews and Miss Alice Wilson of Bellefonte were callers in our town Saturday.

The Missionary Society will meet in the Presbyterian church Friday evening, Aug. 11, when a special program will be presented by the young people.

**Remember Essential Things.**  
The limit upon memory is the limit of your attention and concentration. Successful business men have really splendid memories for the things more essential. They have them by virtue of their concentration, and if they say they are forgetful it will be found that they are only forgetful of the things which they do not elevate to the business standard.

**Earth's Wettest Region.**  
With an annual rainfall exceeding 500 inches, southern Assam is the world's wettest region.

# BRUNSWICK TIRES

Manufactured by  
The Brunswick-Balke-  
Collender Co.

## Now a Tire That is 84% Friction-Proofed!

Friction is the enemy of tire life, for friction generates heat and heat destroys rubber. Every turn of the wheel in gaining road hold causes friction. A touch on the brake multiplies it.

A scientific new method of compounding rubber has decreased friction-caused heat amazingly. The new Brunswick Tires—84% friction-proofed—are revealing astonishing new road endurance and have effected an entirely new conception of tire service.

Brunswick Tires, though offering greatly increased value, cost no more than ordinary tires. A test will convince you.

## PRICES OF BRUNSWICK TIRES

# ODDS AND ENDS AND THINGS

By J. D. C.

These doctor fellows are continually digging up a new fad. A few years ago they decided that every fellow should have his appendix subtracted if he would remain long with us. Following this delving into mankind's interior, and after this fad had run its course, the "cut 'em up" boys decided that those flipper flappers guarding the slide into our "tummies," known as tonsils, must go by the board. After nearly everybody's throat had been reamed out another medical gent figured all our unaccounted ills must be due to too many too few, or too crooked teeth, and immediately thereafter a crusade was started against our teeth, until every dentist in the land is rapidly becoming a millionaire, while we are developing into a soup-drinking nation with a lot of corn from the cob fast becoming a lost art.

All the above were bad enough in their time or until the doctor fellows got to be experts at digging them out, but we think the limit has been pretty near reached, and for that reason refuse to go along on the most recent fad of the doctor fellows. They are now taking to cutting out the remainder of the hand, while J. D. C., a former Philadelphia A. was recently divested of the middle finger of his left hand because one of these faddists told him it would "let the fiddle see." We refuse to give in to a fad, fad or no fad.

The first postoffice in Clearfield county was located on the James Titchell farm, on the ridge road to Glen Richey, almost directly opposite the stone house on Mr. Titchell's farm. The place was called "Redboro" and the first postmaster, Alexander Reed, who opened his place for business on April 20, 1813. A handsome marker has been erected on the spot by Susquehanna chapter Daughters of the American Revolution, who are preparing to mark all the historic points in this section.

It might be interesting to the careless automobile drivers who park their cars on the street so close to the Pennsylvania railroad tracks that it has been found necessary many times to stop trains and have the train crews push the offending autos off the track to know just what this sort of thing means to the railroad company.

An ordinary passenger locomotive consumes a pound of fuel for every fifty-two feet it travels. Each unnecessary stop, made with a heavy freight or passenger train represents a fuel loss of from 500 to 750 pounds of coal depending on the weight of the train, the length of the stop and the grade condition.

A broken axle on a train of fifty cars has been known to cause a loss of as much as 2,510 pounds of coal in a ten-hour period.

The loss of coal each time a modern locomotive pops off for five minutes is about seventy-five pounds. If locomotive firemen were to save little more than one shovelful of coal out of each ten used, the total saving would be equal to nearly 7 per cent of all the coal handled.

The Clearfield County Fair will be held at the beautiful Clearfield Park Association grounds in Clearfield September 26 to 29, 1922, with over \$13,000 in premiums for exhibitors. It will be the biggest strictly agricultural fair in Central Pennsylvania.

The first Clearfield county fair was held in Clearfield in the fall of 1830. The fair grounds at that time were located on the G. L. Reed farm along the river on South Second street. The grounds boasted a third of a mile track.

On August 23d, 1871, the present immediate park was opened, the park committee advertising the fact of the completion of the half-mile race course by the publication of the following couplet in the county papers:

"The gates of Clearfield park  
Stand open night and day  
Inviting every sporting lark  
To come and drive away."  
Fairs have not been held every year since, but very few years have been missed.

A familiar figure at the Clearfield fairs during all the years since the opening in 1871 has been Scotty Erb, of Philipsburg, who recently secured a concession for the coming fair. Scotty was one of the first men to ask for and secure a concession at the fair held on the present grounds. He has been present with a stand of some description at every fair held there during the intervening half century—a record hard to beat.

| Totals             | 899    | 45     | 503    |

The coal strike up to date has cost far more than the war of 1812, which lasted four years, and the coal strike and the rail and coal strike have cost more than the war of 1812 and the Mexican war combined. The war of 1812 lasted 24 months and cost \$119,621,000.

The Mexican war lasted a little more than three years and cost \$174,199,000.

A London psychologist, Dr. Josiah Oldfield, says before 15 and after 50, a woman is all right and easy to get along with, but between those ages you had better keep your eye on her as she is generally "ararin" around making trouble for everybody. The learned doctor says: "Women are eager to command servants, to dominate husbands and to have men as supplicants at their footstools, but the chance of happiness is less for modern women than for those of those generations ago. The happiest periods in a woman's life are under fifteen and over fifty. Too often between those ages woman is discontented and consequently is dangerous. Under fifteen the maiden is engrossed with the pursuits of childhood. Over fifty she often acquires ideals to absorb her attention."

### DAYS OF YOUTH

"We are only young once," you often hear some person remark as an excuse for "hitting the pace."

True, we can be young but once, and the pleasure of youth must be crowded into that space of time.

But how long are we young? Some men are old at forty, while others are still young at sixty. It depends upon the pace they hit and the manner in which they hit it.

We can crowd a lot of work and pleasure into youth if we keep our hearts and our minds and our bodies clean, or we can reduce the amount of both and shorten our youth by resorting to reckless dissipation.

Your youth is your own. It will be prolonged or curtailed by your own acts.

### AND JIM REED WON

The latest returns from Missouri remove apparently the last doubt in regard to Rebel Jim Reed's success. The effort to punish Reed for opposing the treaty and the League and for his insubordination to Wilson thus fails ignominiously. The Democrats of Missouri make plain that they have no more use for the League than Mr. Reed himself had. They also hint unmistakably that they resent political dictation from the old Wilson crowd in this year of our Lord 1922, particularly when it takes the form of a campaign of extermination against their senior Senator in revenge for his doing as they rather than as Mr. Wilson wished in the treaty fight. And that is precisely the result that ought to have been expected. For the League of Nations is even more distrusted today than it was when H. G. Wells wrote of it in his "Outline of History."

"There are few signs of enthusiasm among the nations for the League at the present time. It does not even seem to know how to talk to common men. It has gone into official buildings, and comparatively few people in the world know what it is doing there, or care."

### PROHIBITION AT ISSUE

It is not quite clear why prohibition should be an issue in the campaigns in Ohio, Wisconsin and other states. Prohibition may be opposed by parties and individuals, but it is constitutional law and the election of a few Senators and Congressmen will accomplish nothing toward repeal. All their election will amount to will be an expression of the opinion of a minority which, according to present indications, will never become a majority.

The greatest obstacles to prohibition repeal in this country are the undisputed benefits which prohibition has brought. No wide-spread and comprehensive are these benefits that there is inclination on the part of the majority of the people to extend them rather than curtail them. Even now it is a safe prediction that more advocates than opponents of prohibition will be elected to Congress this fall.

### OBSERVATIONS

The Missouri attitude seems to be that marplotting is all right under some provocations.

Mere ownership of a furnace next fall will be no sign that a householder can start something.

When next winter's cold storage eggs are on the market seniority rights will be heard of again.

About the only available space the poster man has overlooked to date is the barber shop ceiling.

It is one of fate's ironies that Tom Marshall's favorite cigar went down to a nickel again in a Republican administration.

Uncle Sam is still getting returns from the Great War consisting mainly of requests for time extensions on European loans.

Faith in the country's survival of trouble is strengthened so long as there is enough corn on the cob to disarrange the American face.

## THE AGE OF OBSTACLES

From life's very beginning, one meets obstacles at every turn.

It was intended that each day should bring its struggles as these obstacles and struggles are necessary to make us sympathetic and appreciative.

The Clearfield Trust Company takes particular pains to help the new depositor overcome obstacles and invites his business.

**CLEARFIELD TRUST CO.**

## SENATE WILL DELAY SHIP SUBSIDY AS LONG AS POSSIBLE

By HARRY R. HUNT

Washington, Aug. 8.—"Out of the frying-pan into the fire" seems to be the future immediately ahead of the United States Senate.

For no sooner will the Senate have concluded with the tariff bill, which has split party ranks wide open, than it will be confronted with the administration's ship subsidy measure, over which a scarcely less bitter battle seems certain.

The House will take up the subsidy bill soon after it reassembles Aug. 15 following its midsummer recess. Hearings already have been concluded. Action by the House before the middle of September is considered probable.

### Drags in Senate.

But there will be no vote on ship subsidy in the Senate at this session.

Even if the tariff bill is finally cleared by the time the House passes the subsidy measure along, the Senate will balk at any final action until after the ballots Nov. 7 indicate the direction and violence of prevailing political winds.

The aim of the subsidy bill, now entitled "A Bill to Amend and Supplement the Merchant Marine Act of 1920," is to get the government's vast merchant fleet into private hands and into the business of carrying world commerce.

But the Senate, taking the view that there isn't an over-abundance of commerce requiring shipping just now but that there is a noticeable volume of political dissatisfaction and unrest believes nothing will be lost but much gained by proceeding with caution.

### What Bill Provides.

The subsidy bill would provide for the American public, through direct and indirect tribute to American ship operators, paying whatever sum might be necessary to give operators minimum annual profits of 10 per cent. Vessels now owned by the government would be sold to private operators under terms allowing 15 years to complete payment with four per cent interest on unpaid balances.

A loan fund of \$125,000,000 would be established from which private ship owners could borrow two-thirds of the money necessary to build new vessels. Such loan would be made for 15 years and two per cent. annual interest.

Owners of American merchant vessels, in computing net income for taxation, would be permitted to deduct a sum equal to the income derived from operation in foreign trade provided they invest double the amount of the resulting saving in taxes in building new vessels in American yards.

### Shipping Board Function.

The direct subsidy provision of the bill authorizes and directs the Shipping Board to enter into contracts, on behalf of the United States, for the payment of compensation to vessels owned by American citizens and under American registry.

Contracts may run for periods of years, and the government payments could be made at least every six months. The amounts paid would be based on the speed and tonnage of the respective vessels.

Regardless of speed, one-half cent on each gross ton for each 100 miles is proposed. In addition, vessels capable of 12 knots an hour or more would be paid an additional sum in proportion to speed, up to two cents a gross ton on every 100 miles for vessels of 23 knots or over.

# New Fall Styles In Men's and Women's FOOTWEAR

Lots of styles to pick from, made up in all the new leathers and new heels. There is a style for almost every foot. Come in and see this splendid showing of early Fall styles. They are good to look at and you will get that extra amount of wear that you have always received from our Shoes.

You will also have the satisfaction of knowing that if you buy a pair of Shoes from us that they will be fitted properly.

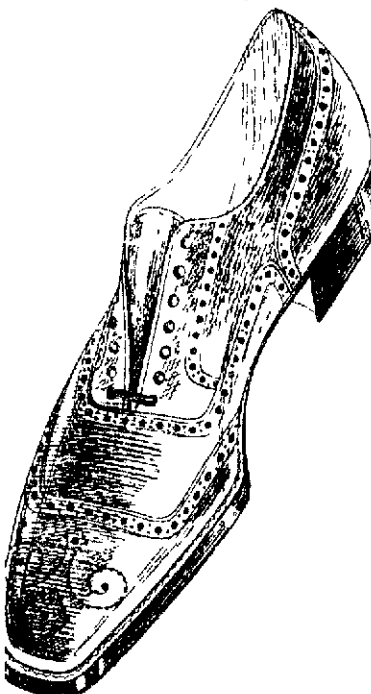

## MEN'S OXFORDS FOR EARLY FALL WEAR

Men appreciate a pair of all around servicable Oxfords and this season we are prepared to show you the greatest line of Men's Oxfords and Shoes that are to be found anywhere.

\$5.50

\$7.00

\$8.75

# LYTLE BROS.

## WOMEN'S OXFORDS

Plainly here are great values. Finer than any shoe values we've ever offered you. The Oxford models this season are not only good to look at but are built of the best materials and will give extra service. They are much lower in price, too.

They come in patent, brown or black calf, and brown or black kid.

\$2.95, \$3.95

\$4.95, \$5.85

## WOMEN'S NEW FALL PUMPS

In patent, kid and brown leathers, in flat, medium or military heels at—

\$2.95, \$4.95, \$5.85

Hosiery to match all the new Low Shoes.

### How Much It Costs.

What this would mean may be indicated by computing what Uncle Sam would pay a fast 10,000-ton carrier between New York and European ports.

At the maximum rates, such a vessel would draw two and a half cents a gross ton on every 100 miles. On the 5,000-mile trip to Europe a fast 10,000-ton ship would earn in direct subsidy \$250 a mile, \$7,500 for the voyage over, or \$15,000 for the round trip.

It is the reaction of the American taxpayer to these figures that has House and Senate members uneasy.

"Subsidy," it is generally agreed, has an unwelcome sound to most American ears. For that reason, de-

pite the fact that it is a pet administration measure, there will be no haste in pushing it through.

For the same reason, it is insisted, one should not speak of "subsidy," but of direct and indirect "aid" to the American merchant war.

But how much "aid," if any, Congress finally will grant will depend to no small degree on what the people who will pay the bill, say when they cast their ballots Nov. 7.

### The Other Side.

Mix—"This paper says that a Kansas farmer who is worth \$20,000 is considered rich enough to move to the city." Hicks—"Does it say how rich a city man ought to be to turn farmer?"—Albany Argus.

CLEARFIELD, PA.

Punxsutawney  
Braddock

Tom Sims SAYS--

Is your wife back from your vacation yet?  
A serious shortage of reformed reformers is reported.  
The man who talks too much never does it well.  
Very few girls are as bad as they are painted; but lots are as white as they are powdered.  
The man with the least credit takes the least care of it.  
Now they claim Sherman didn't say "War is hell"; but that doesn't change what war is.  
The bigger auto a family has, the later they are at a party.  
Wealth is a burden in Russia. It takes a ton of rubles to buy a stick of candy.  
Grounds for divorce are usually battle grounds.  
We don't know where Rockefeller got his first dollar, but he got a man's last dollar.  
Home-made people seldom grow wild.  
Funny things happen. One day last week a millionaire's son was out of trouble.

Going South is fine, but a cashier who did it was caught.  
The latest boy wonder is "How long before school?"  
Easy going men often find it hard to keep going.  
It is hard to love thy neighbor when he loves thy lawn mower.

OHIO PRIMARY

Continued From Page One  
Thompson, of Cleveland, said to have the approval of the White House, and Congressman C. L. Knight were prepared to show the best contest of the day in their race for the Republican gubernatorial nomination. Vic Donahy was the Democratic favorite. Donahy was defeated by Governor Davis as the last election and is by far the strongest of the three Democratic aspirants in today's race.

To Escape Knife of Divorce.  
A chap before marriage does a lot of spooning, but after marriage it's a case of fork over.—Boston Transcript

Warehouse Department

Guided by Electricity.  
A French transatlantic steamship company was the first to experiment with the radiogoniometer invented by Bellini and Tosi. By means of this apparatus the direction of an invisible vessel, sailing along a coast and emitting wireless signals, can be determined from two stations on the shore and its course can be accurately mapped. Conversely, a vessel furnished with a radiogoniometer can determine its place near a coast by observing the directions of the waves coming from two wireless stations on the shore, and can thus make its way in a fog when the coast lights are invisible.

Advertising Brings—Results.

Lily of the Valley.  
The number of its names testifies to the popularity of the lily of the valley. Prettiest of all these is "ladder to heaven," which refers to its quality of purity and humility. The French call it "Muguet de Mal," the Germans, "Mal Blume."

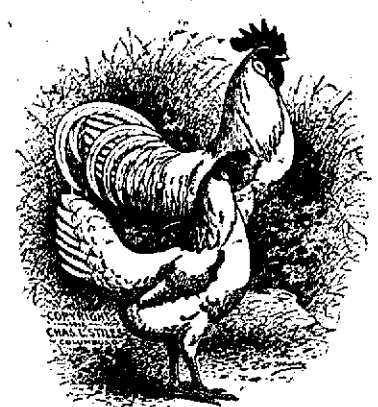

Virtue in Rising From Defeat.  
There is something solid and doughty in the man that can rise from defeat, the stuff of which victories are made in due time, when we are able to choose our position, better and the sun is at our back.—Lowell.

GLEN CAMPBELL WOMAN DIES

Mrs. W. H. Conner died at her home in Glen Campbell at 7 o'clock Monday morning after a brief illness. She is survived by her husband and the following children by her first husband: Mrs. Frank Diehl, of Bell's Landing; Mrs. Irvin Davis, of McGee's Mills; Lloyd Johnson, of near Grampian; James Johnson, of Cour d'Alene, Idaho.  
The funeral will be held from her late home Wednesday afternoon at 1 o'clock. Interment will be made at Grampian.

Not Original With Haynes.  
The aphorism, "He serves his party best who serves his country best" is from the inaugural address of Rutherford B. Hayes (1822-1893), as President of the United States, delivered March 5, 1877. In the famous translation of Homer's Iliad, made by Alexander Pope (1688-1744), the English poet, there is this line: "He serves me most who serves his country best."

Ancient Olympian Games.  
For the first 50 years from 776 to 725 B. C. the Olympian games were merely a 300-yard foot race. Then came the Pentathlon—running, jumping, wrestling, discus throwing and javelin throwing. Next was added the Paneratum, a combination of boxing and wrestling. Later chariot races. Athletes were required to train ten months and spend one month before the contests at Olympia.

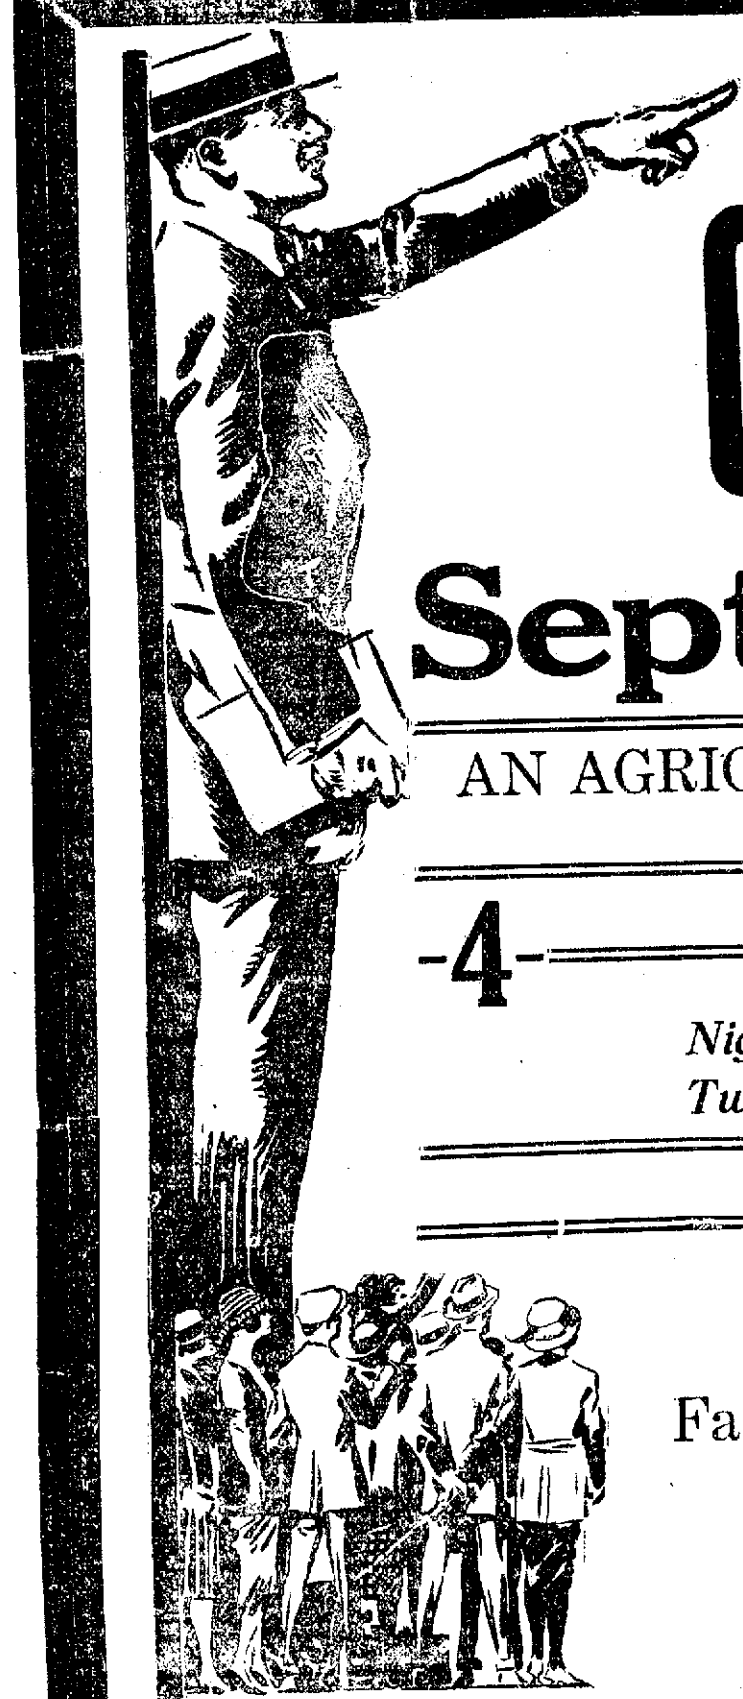

To the Poultry Raisers of Clearfield County,

As Superintendent of this Department of the Clearfield County Fair to be held September 26, 27, 28, 29, my ambition is to make this year's poultry exhibit the largest and best in the history of the fair. This can be accomplished by the co-operation of all breeders of thoroughbred poultry. In the past the exhibitors have responded nobly and have exhibited poultry that would be a credit to any poultry show in the state. An excellent spirit has existed among the different exhibitors, who have always supported the judge in his decisions in placing the prizes. Each year many new exhibits are placed and I hope this year will bring together all the breeders who have poultry to show. I will be glad to assist any one in lining up your birds or give you any information in regard to entering, etc. All stock will be fed and watered. No entry fee is charged. The prizes have been increased over the prizes offered in previous years. Following is the list of prizes offered:

|                                  | 1st    | 2nd    | 3rd    |
|----------------------------------|--------|--------|--------|
|                                  | Prize  | Prize  | Prize  |
| Old Pen (Cock & 4 Hens)          | \$3.00 | \$2.00 | \$1.00 |
| Young Pen (Cockerel & 4 Pullets) | \$3.00 | \$2.00 | \$1.00 |
| Hen                              | \$2.00 | \$1.50 | \$1.00 |
| Cock                             | \$2.00 | \$1.50 | \$1.00 |
| Pullet                           | \$2.00 | \$1.50 | \$1.00 |
| Cockerel                         | \$2.00 | \$1.50 | \$1.00 |

## THE WISE BIRD KNOWS WHEN TO FLY!

**Couldn't Fool Him.**  
Herbert was asked to stay for dinner. His hostess, knowing his fondness for chicken, laughingly told him they were going to have chicken for dinner. Herbert asked to see the bowl, and she took him to the kitchen and opened the oven door. To Herbert's surprise he beheld a roast of beef. Then he said sadly "I'm afraid I can't stay, I only like chickens wiv leggs on."

**More Than One Universe.**  
With the naked eye one may see 5,000 stars, with the telescope 50,000, 000. And beyond planet and star and Milky Way are the nebulae, of which Herschel counted more than 2,000—stellar disks, composed of billions of suns—unexplored universes far outside our own, not friendly, next-door neighbors to us, like the North star, whose light requires only 50 years to reach us, or like Sirius or Hercules.

**Passing of the Scepter.**  
"Of course," said the bachelor thoughtfully, "there can be no such thing as joint rule in a family. Someone must be the head." "True," but the scepter passes from one to another. "How?" "Well, at the beginning of married life the husband holds it; then it gently and unobtrusively passes to the wife, and he never gets it back again." "She keeps it forever?" "Oh, no; the baby gets it next."

**When Florence Was Capital.**  
Florence has had some previous association with the Italian court, for in 1864 it was made the temporary capital of Italy, and in the following year the king and court removed there. In the same year the first assembly of the Italian parliament took place there. Not until 1871 did the government remove to Rome as the capital of Italy.

**Oldest Writing.**  
According to the claims of the University of Pennsylvania museum, the oldest pieces of writing known to us are from the Babylonian tablets recently deciphered by Professor Barton of the University of Pennsylvania. They deal with events as far back as 5900 B. C.

## Gossip For Tonight's Tea Table

Mr. and Mrs. C. M. Shaw of Pittsburgh motored here yesterday to spend some time with friends and relatives. They were accompanied by Mrs. Rebecca M. Shaw, who has been spending a few days with relatives in Greensburg.

Walter Watson and family motored to Laport, Sullivan county, last Wednesday to visit their daughter, Mrs. N. J. Simmons. The return trip was made Saturday.

Mr. and Mrs. W. W. Byron and daughter Kathryn have returned to their home in Altoona after visiting the former's sister, Mrs. H. B. Snyder.

Mr. and Mrs. George M. Rosser and daughter Jean are on a motor trip to Philadelphia and Atlantic City.

Born to Mr. and Mrs. Bruce Paterson at their home 11 W. Pine street, early Monday morning, an 8-pound daughter.

William Gunther, of Third street, was taken sick while at work at the Harbison-Walker brick works yesterday and had to be taken to his home, where he is now recovering satisfactorily.

## DUBOIS HOG RAISER BUYS HIGH GRADE HOGS AT PUNXSU

City Commissioner Geo. Minns Adds 3 Fine Berkshire Sires To His Herd At Big Sale.

AVERAGE \$65 HEAD

City Commissioner George Minns, Jr., of DuBois, set the pace for hog-buyers of this section at the big Berkshire sale at Punxsutawney Friday, by purchasing the highest-priced hog at the sale and also by purchasing the largest number of hogs of any of the many buyers that gathered for that important event.

Planned by the Frostburg Berkshire Association for the purpose of bringing in highly bred stock to increase the standards of the herds of this section, the Berkshire sale proved to be an occasion for the gathering of hundreds of stock raisers and farmers from all over this section of the state.

Twenty-seven hogs selected from the finest Berkshire herds in Berks, Bucks, Lancaster, York and Chester counties, had been gathered for the sale and Auctioneer Sam Moore, of Brookville, was greeted by spirited bidding. The sale being finished in short order.

The average price brought by the pure-breds was \$65 a head, one an-

imal purchased by Mr. Minns topping the list when it was knocked down for \$104. Mr. Minns also bought two other hogs and they will be used to improve the herd on his farm immediately north of DuBois.

**Purchasers.**  
Those who purchased hogs were: Inglenbreed Gabrielson, Valer, 2; S. J. Stahlman, Brookville; S. S. Wetzel, Marion Center; D. F. Gaudley, Punxsutawney; George Pugh, 2; George Minns, DuBois, 3; D. W. Bish, Frostburg; I. S. Mitchell, Punxsutawney; C. B. Altman, Sligo, 2; J. W. Brown, Anita; H. H. Wetzel, Marion Center; J. M. Dicky, Clymer; Harry Holsopple, Penn Run; R. R. McDonald, New Bethlehem; Ed. Jones, Wilmore, 2; Dr. F. D. Pringle, Punxsutawney, 2; R. B. Faust, Sligo; S. E. Emhoff, New Bethlehem; W. H. Bish, Punxsutawney, and J. Means.

## RUNNING SORES VANISH

San Cura Ointment Relieves Terrible Skin Itch Like Magic—Relieves also Eczema, Salt Rheum and Heals Ulcers.

**A Most Wonderful Ointment.**  
Thousands have blessed the day they first heard of San Cura, for in thousands of homes in America, its wonderful quick acting, healing power has freed from terrible affliction one or more persons.

Running sores or fever sores, no matter how long standing, will soon disappear when San Cura Ointment is used or we will refund your money. It cures so often that your local druggist guarantees it for any of the troubles mentioned above and for burns, scalds, bruises, frost-bites, chilblains, boils, carbuncles, sore nipples, itching piles. Money back if not satisfied.

San Cura Ointment—35c, 65c and \$1.25 at all Drug Stores.

Jordan, Oliveburg.  
There were 27 hogs in the lot shipped in and every one of them was sold.

**Jane Austen's Old Kiss.**  
There is not a single lover's kiss in all Jane Austen's novels, says A. R. Walsley. One kiss, and only one, is mentioned in the letters; but that was only one a gentleman wanted to give, and there is no evidence that he bestowed it.

**The Palace Pigeons.**  
One of the favorite roosting places of the rainbow or wood pigeon is in the grounds of Buckingham palace. Soon after three o'clock in the afternoon they may be observed gathering in the upper branches of the tallest trees. On one of the stormy days, such as we had recently, when the western sky is adumbrated, the delicate outline of the loughs and belgs against the setting sun is blotted with the forms of scores of roosting birds, huddling with tufted-up feathers upon their windy perch.

# Great Activity This Month In Cattle Deals

## SECOND CARLOAD OF GRADE GUERNSEYS SHIPPED TO CHESTER COUNTY; CATTLE BROUGHT GOOD PRICES TO THE RAISERS

Most Of Those Who Sold Grades Are Now Planning To Replace Them With The Pure Bred Stock, Which They Can Breed With No More Expense.

### WHO IS IN THE MARKET FOR QUALITY?

During the past week, the second car load of grade Guernsey cattle was shipped out of Clearfield County. This bunch of twenty-two head, as well as the former load, went to Chester County, Pennsylvania. All of the cattle, in both cars, were obtained in the vicinity of Grampian and Curwensville, with the exception of three head in Goshen and a few around Lumber City and Curry Run.

#### Bring New Ones

Clearfield County is beginning to hold a unique position in the livestock centers of the State, having in the past few months imported about thirty head of pure breeds from Grove City community, and Columbia County, and expect to bring in about two car loads of pure bred heifers before fair time this fall.

The predominating interest seems to lie with the Guernsey breed, at the present time, and almost all inquiries received, by the Farm Bureau, are for that breed of cattle. However, as has been stated previously on this page, the Farm Bureau, co-operating with the Banks of the county will be glad to assist anyone in obtaining pure-breeds of any other breed.

A number of men who consigned grade Guernseys to both car loads that left the county are going to purchase pure breeds in the near future, which will add greatly to the pure bred industry of the County. At the present time, there is a great demand for Guernsey cattle, both in the grade and pure bred line, and the writer feels certain that this interest will continue for years to come, as the Guernsey breed is one that has always held a fairly even level throughout the history of the dairy industry. This has been mainly, because of the scarcity of the breed, and the great popularity of the Holstein during the war period.

#### A Good Market

The Farm Bureau could find sale for two or three hundred head of either pure bred or grade Guernseys each year, if they were for sale. However since it costs no more to feed pure breeds than grades, and the price is double or more for the pure breeds, it behooves the dairymen of the County to grade up their herds as quickly as possible, by the use of outstanding pure bred sires and to supplement a few of the grades with pure breeds just as quickly as possible or as finances will permit.

#### Place Your Order

The Livestock Auxiliary Association co-operating with the Farm Bureau desire that the farmers of the County, who are in the market for pure breeds, get in touch with the Farm Bureau at once, so that when the right opportunity arises for obtaining pure breeds, they might be in a position to go after them without first having to find out who were in the market for these individuals. Place your order at once and be sure of getting in on the next car load.

#### Of Two Evils—

Hugh had been left with his grand parents when his mother was called away by the illness of her father. A few days after she went away the little fellow said "I wish I was where mother is." His grandmother said, "Why, just think; if you were there you would be missing your school," to which he replied, "Yes, but don't you know it is a great deal worse to miss your mother than your school?"

## ONLY HIGH GRADE FERTILIZERS PAY IN THE LONG RUN

Action recently taken by experiment station officials and representatives of the fertilizer trade in conference at Wilmington, Delaware, will interest every Clearfield county farmer who is concerned about the fertilizer price lists. For many years, experiment station workers and extension specialists at the Pennsylvania State College have urged the farmers to purchase only high grade fertilizers in view of the large amount of money wasted annually in the expenditure for low-grade mixtures containing varying amounts of fillers. At the Wilmington conference, the fertilizer men gave their approval to the teaching of these specialists, in promoting the use of high grade fertilizers, and fewer formulas. In the matter of a number of formulas alone, it is obvious that the saving in manufacturing costs will effect an appreciable difference in the price the farmer has to pay.

Not all farmers, however, have learned to appreciate the value of using high-grade fertilizers. They were misled on buying a 2-8-2, for instance, in preference to a 3-12-3, because the price of the former is lower. The formula for both is identical. In lower grade, the purchaser simply pays for a greater amount of filler which increases the bulk of the mixture but does not add to its fertilizing properties. Two tons of the high grade fertilizer in this case will give the same results as three tons of the lower grade. When it is considered that the cost of mixing, bagging, handling, and transporting a ton of fertilizer is as much as \$11.00, in excess of the actual cost of the raw products, it is plain that the purchase of two tons of the high grade fertilizer, the 3-12-3, will effect a saving in cost that will be of greatest benefit to the farmer.

## VITAMINE VERSES

Little Willie, cabbage fed, Grew a bulky cabbage head, Large and round, but filled with naught That resembled active thought.

Every day to school he'd toddle With a vacuum in his noddle. Quite the dumbbell of the school. Couldn't learn by rote or rule.

History he simply hated. Grammar with deep gloom was weighted. Spelling and arithmetic Made him, somehow, simply sick.

Teacher said, "Of course he's good— So is any block of wood. Parents, take your backward child: Find him treatment, strong or mild."

When the doctor asked with heat "What does little Willie eat?" Papa said: "His cabbage diet Keeps our Willie nice and quiet."

Little Willie's been promoted, To his studies he's devoted. Teacher says: "He's very bright! Leads his class in fun or fight. Meat, red meat, has built up Willie.

Aren't "food fad" people silly?

—R. D. Hebb and E. E. Morgan in the "Chicago Daily News."

## Ways Of Breaking Up Broody Hens Are Worth Remembering

There are dozen of old fashioned ways of breaking up broody hens. One of the best methods is to place the hen in a broody coop. A coop that will answer this purpose is one having a slatted bottom, with two inch slats two inches apart. Suspend such a crate about five feet from the ground and let the hen get plenty of fresh air. Feed a good scratch feed and a good mash in small containers, along with plenty of water, grit and oyster shell.

It would be to an advantage to feed her moist mash that can be cleaned up in fifteen minutes once a day. This will enable her to get a good forcing feed into her system and come back into laying in a hurry. A hen should not be in the coop more than 2 to 5 days before she will come back into laying. Although hens have been known to go broody for 14 to 21 days, then lay 20 eggs, then go broody again for the same length of time, and be profitable hens. Such hens may be profitable, but are far from being desirable.

## TESTED COWS GAVE TON MORE MILK IN TWO YEAR PERIOD

A milk flow increase in two years averaging more than a ton of milk to the cow is credited by Luther Miller, a Washington County dairymen, to his membership in the cow-testing association there.

The association records show that in June, 1920, Mr. Miller's cows had an average yearly production of 4,990 pounds of milk and 265 pounds of butterfat. The June just passed, a herd of equal size, culled and rebuilt in the light of production statistics obtained through the association averaged 7,902 pounds of milk and 412 pounds of butterfat.

## CHOOSING A RAM IS A VERY IMPORTANT PART OF LIVESTOCK RAISING JUST NOW

The season is near at hand when Clearfield County sheep men will find it necessary to choose a ram for next year's service. This particular phase of flock management is usually postponed until the very last minute, and then it becomes necessary for the flock owner to take whatever he can get. He may be lucky enough to get a real good sire, but more often, the best he can do is to purchase a grade or scrub substitute for the pure bred ram that he might have had.

The farmer who has an average sized flock can no more af-

ford to use a scrub or grade ram in service to his ewes, than can the extensive sheep raiser. Mr. W. B. Connell, Sheep Extension specialist at the Pennsylvania State College, claims that a good pure bred ram will pay for himself in one year. When the flock is small, say from 12 to 20 ewes, a good strong lamb can be used. It is imperative, however, that the selection be made while there are plenty of good rams available. County Agent Sterrett will be glad to assist any flock owner who is in the market for a good pure bred sire.

## FACTS ON SWINE INDUSTRY IN THE KEYSTONE STATE

Pennsylvania produces about one hog to every nine people, or in other words about a million hogs a year. There are kept for breeding purposes, approximately 143,000 brood sows and 19,000 boars, on some 72,000 farms in this State. From this it is plain that the average of these farms has but two brood sows. There is a boar, on the average, for every 7.5 sows, whereas there should be, for the greatest economy, one to every 30 or 40 sows.

Taking the United States as a whole, there are about 12 brood sows to every boar, almost double the ratio for Pennsylvania. Of the hogs in this State, only 2.9 per cent are pure bred. From the most authentic reports it is learned that 43 per cent of the boars in the State are pure bred, which means that only a small percentage of the females are so bred.

The Federal Government has recently published figures gathered from a large number of tests which show that purebreds are 38 per cent more efficient than scrub hogs in producing pork. This can be taken as conclusive proof that the pure bred hog is an improved machine, more efficient than the scrub in producing pork. If Pennsylvania is to attain first place in the amount of pork produced, our swine breeders must of necessity turn to the pure bred.

Swine Management Series, By F. M. Christen State College

## PASTURE WILL RUN SHORT THIS MONTH; FEED CATTLE WELL

During the latter part of August, pasture usually runs short. At which times medium or medium producers will not respond much to grain and will not pay for the grain eaten. An experiment carried on at the Cornell Experiment Station showed how even, that cows fed grain during the summer, will produce much better during the coming winter. This is exceptionally true of heavy producers and cows that do not freshen until Spring.

Where a small amount of grain is fed corn is good with pasture grass. It provides a fairly well balanced ration. Where five pounds or more of grain is fed, a mixture should be used. This may be made up from any of the following feeds.

Hominy or corn meal, ground oats, cottonseed meal, bran, gluten, or linseed meal, depending on the prices and feeds available.

#### Lands Practically Without Milk.

Japan and China are countries whose great populations have existed and increased without one of the articles of diet that to Americans seems an elementary food—milk. There is practically no production of milk in either of these countries, almost the only supply being imported from foreign nations in the form of condensed milk in cans.

## POSSIBILITIES IN COW TESTING WORK AS INCOME RAISER

On the basis of the work done by cow-testing associations throughout Pennsylvania, L. W. Morley, in charge of the Dairy Extension at the Pennsylvania State College states that similar associations, if extended to include the owners of the 1,000,000 cows of the State, would result in an increased dairy income of about \$3,000,000 a year. Mr. Morley reports that after four years of testing in one association the average milk production per cow was increased by more than 1200 pounds and the butter fat increased by 76 pounds. An increase of 76 pounds of fat per cow would mean 76,000,000 pounds of fat increase for all the cows in the State which calculated at forty cents a pound, would mean an added income of over \$30,000,000.

## COUNTY Agent Chat

Sow Pennsylvania Forty-four Seed Wheat this Fall. Will increase your yield per acre at least five bushels over other varieties. The Farm Bureau has a list of all the farmers in the County having this seed. If your neighbor does not have any write or call for the nearest source.

Potatoes should be sprayed for blight every ten days. By omitting one or two sprays the work of putting in the others is liable to be entirely lost.

Watch for announcements of Bee Keepers meeting, in the County, during the last of this month.

Have you placed your order for that pure bred heifer yet? Orders for the next car load should be in this week.

Pure bred animals are already being entered for the County Fair. In fact almost as many cattle have entered now as were exhibited last year. Make your entries early, so that the Fair Committee will know the number of a few sheds to build in order to accommodate the number of increased animals that will be exhibited. Help make Clearfield County Fair the largest in the State.

August 25th is Potato day at the Pennsylvania State College. The greatest group of farmers' representatives on the Committee will be present from every county in the State on that day. If you are interested in potato culture you cannot afford not to be there.

"Boys", you can still gain admission to the Freshman Class in Agriculture at the Pennsylvania State College this Fall, if you apply at once. The quota of agricultural students is almost reached at the present time. The majority of the other departments are already filled, as a great number over the one thousand, that can be admitted, have been received up to the present time.

#### Pleasant Prospect.

Bobby was fond of his uncle's dog, a ferocious looking mastiff, and was much distressed when he learned the dog would have to be muzzled because he had bitten the butcher. Bobby said: "I don't believe I'll do it." When the butcher came over Bobby met him at the door. He was very angry and said to the butcher: "You must come here and see if his teeth fits the muzzles."

#### And If She Stands for That!

"When I want to be plumb satisfied in my mind dat a sista has done been converted and not dees merely pollytoxin to be popular," confessed sage old Parson Raster, "I takes her husband to one side and tells him to let a wet dog into de parlor de fast time it rains."—Judge.

## PRICE VARIATION IN EGGS DISCUSSED BY POULTRY SPECIALIST, D. M. GRAY

As the State College Poultry Extension specialists conduct their demonstrations in the counties of the State they find a wide variation in the price that farmers are receiving for their eggs. The range may be anywhere from 18 to 40 cents a dozen. Naturally, the farmer who receives the low price wonders why his eggs do not demand the top quotation. Local market conditions and the method of selling exert some influence to be sure, but in nine cases out of ten the eggs themselves vary in quality as much as the difference in price indicates.

Small, dirty, foul-smelling old

## ELEVEN POULTRY CULLING EXHIBITIONS SHOW CAUSE OF LOW EGG PRODUCTION IS LARGELY POOR FEEDING IN THIS COUNTY

Dry Mash And Beef Scrap Is Omitted Too Soon—Poultry Culling Is No More A Mere Experiment, The Reports Indicate Since These Cullings Were Made.

### KEEP UP CULLING ALL SUMMER LONG

During the week of July 18th to 21st, the Farm Bureau held eleven Poultry Culling Demonstrations in Clearfield County. An average of twenty-five poultrymen attended each of these meetings, which were conducted by Professor D. M. Gray, of the Poultry Extension department, of State College.

These meetings brought out the interesting fact that poor feeding methods had more to do with the low production of the average farmer than did the culls in the flock. Too many farmers over the State omit the dry mash from the ration as soon as spring comes around, thinking that the laying hens will obtain enough worms and other material around the farm to make up for the beef scrap in the mash. These meetings demonstrated, however, that where the flock has been fed a mash consistently throughout the summer, having in it twenty per cent beef scrap, the hens

were laying profitably up to the present time, with few moulting in the flock.

It has been found that the average flock, about one-third of the hens could be discarded with profit. It has shown from reports since the culling demonstrations that very few eggs were received from the culls.

The culling of poultry has passed the experimental stage, and with proper feeding previously to the culling, the majority of unprofitable hens can easily be eliminated from the flock. This work should be followed through out the summer. Every two or three weeks picking out the hens that are easily moulting, that have a poor conformation. This way all of the hens can be eliminated before the winter weather comes on, and thereby make room for hens and pullets that will be profitable to keep through out the winter months when the price of eggs is high.

## Beef Cattle Meeting In McKean County Will Be Held On August 11th

A meeting of special interest to the beef cattle men will be held in McKean County on Friday, August 11th. Two hundred and twenty-five head of feeder steers were placed in cut-over timber land, similar to much of the woodland in Clearfield County, on the first of last April. These cattle have made exceptional gains and the results are being watched and studied by beef cattle men over the entire country. Any one interested sufficiently to attend this meeting should get in touch with the Farm Bureau at once for further information. There is a possibility that a car load or two, from the County, will attend this meeting.

Cattle were the first money. The Roman word for money, pecuniam, is derived from pecus, meaning cattle.—Well's Outline of History.

#### Twins.

The tendency to produce more than one child at a birth runs in families. It is handed down from mother to daughter. If the former has given birth to one or more sets of twins, the latter is rather likely to do the same thing.

## FARMERS IN BUSY SEASON NEGLECT AN IMPORTANT MATTER

This is one season of the whole year when farmers are prone to neglect one of the most essential phases of their business, that of keeping proper records and accounts of the business up-to-the-minute. It is a busy time of the year and the average farmer, when he is "busy," in an effort to lighten the burden, will drop those things that seem to him as the least important. The question is, whether or not farm account should be considered this head? Surely one would not think of discontinuing milking of the cows, the feeding of livestock, nor the harvesting of crops, and yet instantly can be cited where accurate farm accounts have shown the farmer exactly how he has lost money on these operations.

Farm accounts are and should be considered as inseparable from the successful management of a farm. Any of the tasks mentioned. The accounts are the basis of all business management. Without them, a statement analysis of the year's work is incomplete and uncertain. They offer the only means whereby leaks and losses can be found and checked. They often suggest methods of improving farm practices that will change a failing farm to a successful business enterprise. If the farmer would devote to give a certain amount of time each day to the recording of that day's transactions it would be no more necessary to neglect the profit-and-loss gauge of his business than it would to neglect the milking of the family cow.

## Cow Testing Association In Process Of Forming In Clearfield County

During the past month or so considerable interest has been shown, by a number of dairymen in the vicinity of Clearfield, for a Cow Testing Association, and during the month, an effort will be made to complete the organization.

Other articles on this page will demonstrate the benefit from such an organization.

# Join Before the Club Closes!

To Do This You'll Have To

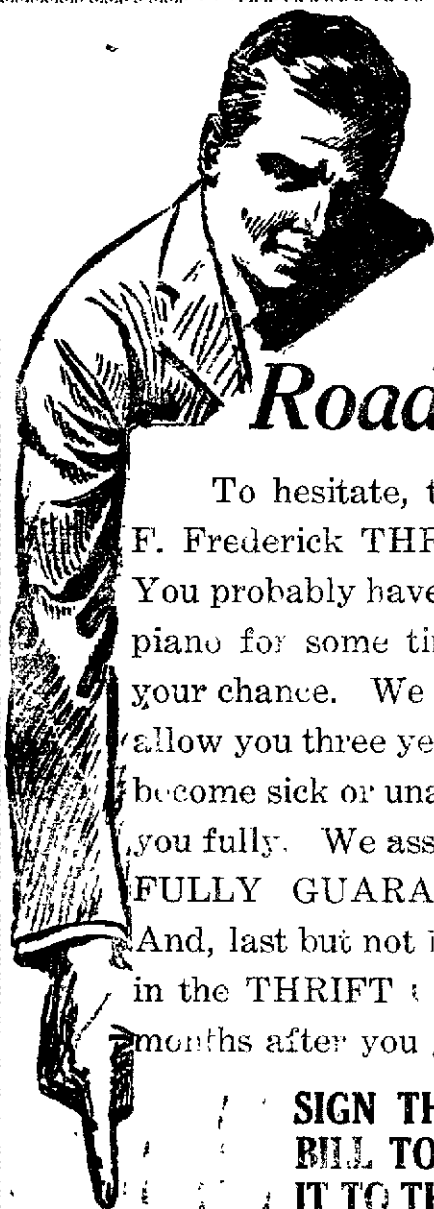

# h u r r y !

Application Blanks Are Coming Fast And  
When We Reach Our Allotted Number  
The Frederick Thrift Club Will Close

The unusual advantages of this THRIFT CLUB has brought quick response---a response much greater than we expected---and if you are going to take advantage of the wonderful opportunity, you will have to act at once.

The application blanks are coming in with every mail, they are being handed in to the store and the members of the THRIFT CLUB are getting the advantages of the THRIFT idea as applied piano buying.

So if you want to save money; if you want to exercise the real idea of the times---THRIFT, be sure to get in touch with us before it is to late.

## Sign This Blank And Start Your Home On the Road to Musical Enjoyment

To hesitate, to put off signing this application blank for the W. F. Frederick THRIFT CLUB is to take chances of not getting in. You probably have been wanting a piano, a player-piano or a Grand piano for some time, but hesitated because of the expense. Here's your chance. We give you every protection. We take all the risk. We allow you three years in which to pay your Club dues. And if you become sick or unable to work, if you lose your position, we protect you fully. We assume the risk if you are visited by fire. AND WE FULLY GUARANTEE EVERY INSTRUMENT FOR 10 YEARS. And, last but not least, we allow you to exchange the piano you get in the THRIFT CLUB for another instrument if you desire, for six months after you join the club.

**SIGN THE APPLICATION, PIN YOUR DOLLAR  
BILL TO IT AND EITHER SEND, BRING OR MAIL  
IT TO THE STORE WITHOUT FAIL TOMORROW.**

### APPLICATION FOR MEMBERSHIP

Gentlemen: Date ..... 192....

Please enclose my application for membership in your THRIFT CLUB.

I herewith pay you the membership fee of One Dollar (\$1.00), which, if my application is accepted, will entitle me to a full membership in your Thrift Club, together with all the Club advantages if I select a Thrift Club piano or player-piano at your store after my application is accepted, it being distinctly understood that my application is rejected or if I decide not to make a selection, the membership fee will be refunded.

I am interested in .....  
(Piano, Player-Piano or Grand Piano)

My Name .....

Street .....

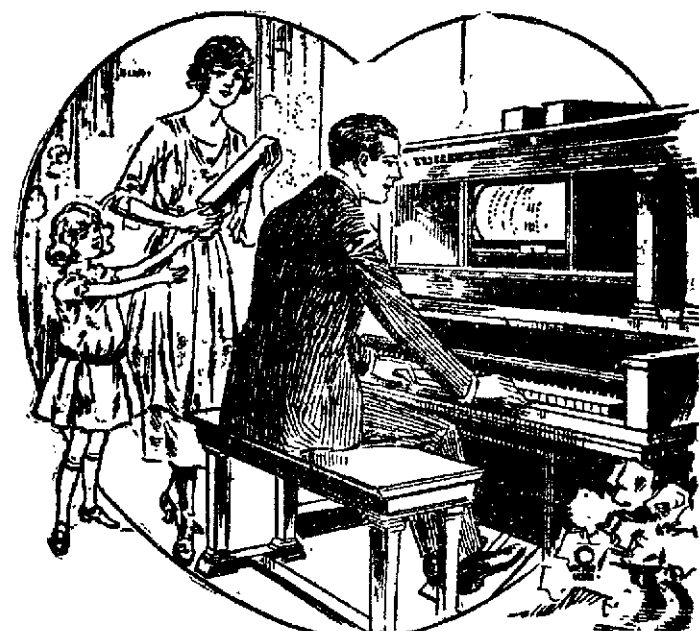

City ..... State .....

NOTE—Applicant must sign in person.

## Player Pianos

## Upright Pianos

## Grand Pianos

You have the choice of anything in our immense stock of Uprights, Players and Grands (which also includes some Baby Grands). You are not limited to the selection of one finish or one style—there are many styles and all the finishes. The tonal quality of any one of the FREDERICK PIANOS is so high and has been known so long in this vicinity that you only have to ask your neighbor how he likes his piano and almost always you'll find the answer the same: "I got my FREDERICK PIANO some time ago and if anything the tone is richer and fuller than it was when I first bought it."

And then—think of the hours of enjoyment FREDERICK PIANOS have brought to many homes! You've been in homes where the piano was the center of a group of young folks who were enjoying themselves to the limit singing songs—think of how much easier it will be to keep the young folks around you if you have the musical attraction in your home.

Then again. Possibly you want some music and no one with the ability to play it about. If you have a player-piano, all you have to do is slip on a roll and start the pedal motion. Forthwith comes the work of the great masters or the jazziest kind of jazz.

**Your Home Can Be Made A Center For the Young Folks or You Can Have Plenty  
Of Music Of Your Own Making If You'll Join The Thrift Club.**

# LESTER PIANOS & PLAYERS

## SPECIAL AUGUST SALE

### Don't fail to hear the marvelous Lester Piano-Player

Not only is the superb, high-class, sweet-toned Lester Piano, the admired instrument of musicians and teachers, offered to you at extraordinarily low prices, but the terms are so wonderfully easy that anybody can take advantage of the opportunity. If you want a Piano that settles it, all you have to do is just come to us and you get it practically on your own terms. The Lester Player-Piano is easiest to pedal, easiest to accent and brings out in minutest detail all of the expression and tone-color of the world's leading pianist. You can search the piano trade from coast to coast and find no other Player-Piano with as many splendid features, combined with such wonderful durability. Permanent satisfaction is built into every LESTER. This year, next year—ten, twenty years from now, your Lester will have the same sterling qualities that make it your choice today. Its wonderful stamina and durability make it a valued and worthy possession years after the ordinary instrument is worn out.

If you wish you may have over four years in which to pay for it. There is NO INTEREST added to the price of a Lester Piano or Player-Piano. We insure your piano so that in case of fire or accident your piano is replaced.

## FREE \$25 Worth of Music Rolls

OF YOUR OWN SELECTION WILL BE GIVEN YOU IN ADDITION TO A BEAUTIFUL BENCH TO MATCH YOUR PLAYER-PIANO

### Your old piano or phonograph will be taken in exchange at full value.

Come in and talk it over with us at our new location. With the wonderfully convenient terms we give you on such a high grade piano as the Lester, you cannot afford to be without music in your home.

FEEL THE NEED OF A TONIC?

Do you go at your work listlessly and in that I-don't-care sort of way that betokens a system that needs a tonic? We have several tonics that will put some pep in your system and that will make you go at your work from an entirely different angle. Drop in and let us talk it over with you.

Aughinbaugh's

WILL DEMONSTRATE FORDSON TRACTOR

The Pittsburgh branch of the Ford Motor Co., in conjunction with authorities and distributors of special industrial, commercial and municipal equipment for the Fordson Tractor will hold a public exhibit during the week of Sept. 11 in Pittsburgh, at which time the possibilities of the Fordson industrially equipped, will be properly demonstrated.

Henry Ford, raised as a farmer boy,

conceived the idea of reducing the many tasks of the farmer by the aid of a portable power unit. The Fordson tractor is the medium through which this has been accomplished, and has proven its value over and over again. Although originally designed for farm work, the Fordson has proven so practical in its many industrial, commercial and municipal uses that a genuine demand in this field has already been created.

One of the most outstanding features of the Fordson is its adaptability in the many and diversified tasks to which it is subjected. The tractor has demonstrated its ability to pull a standard 36 foot box car, as well as to perform many other feats of a similarly astonishing character.

The coming exhibition will represent the finest accumulation of tractor industrial equipment and appliances possible to display. Many leading local and out of town manufacturers, contracting firms, lumber companies, and many other commercial companies have already signified their desire to attend the exhibition so that they may witness the remarkable performances of the Fordson. The exhibition will be free to the public and from the amount of enthusiasm already manifested there is every indication that the event will be largely attended.
